Thank you OPSB for standing up and paying attention to this critical issue, for the people. The Icebreaker Developer is compromising fresh water for over 11 million people.? The greatest threat of all is the undermining?of an EA, as?well as embellishing statements regarding job creation, cost, etc. This project has been misrepresented from the beginning. OHIO NEEDS YOU to FIND A WAY TO PAY VERY CLOSE ATTENTION TO THEM. They want to industrialize a fresh body of water for all the wrong reasons.
