TAILS# 03E15000-2016-TA-1706

Robert,

We have received your running buffalo clover habitat survey report for the subject project. No running buffalo clover was detected. The survey was conducted at the appropriate time and by an approved surveyor. Due to the results of the survey, no further avoidance or minimization measures are required for this species.

Sincerely,

Jenny

Jenny:

Please find attached the Running Buffalo Clover survey report, for your review and comment.

As this project is subject to the conditions of an Ohio Power Siting Board certification, which includes specifications for minimizing impacts to sensitive species during construction, we would appreciate your concurrence.

The survey is approved for this 2020 field season.

If you have a tails number for the project I will enter this information into our system.

I hope the weather improves for the survey.

Jenny:

Duke Energy Ohio, Inc. is proposing to survey for the running buffalo clover along a proposed pipeline in Hamilton County, Ohio. The area is largely developed, but does cross some natural areas and areas under tree cover.

Please find attached our plan for the survey.

We would appreciate your review and comment on the proposed survey approach. We intend to begin the survey on Tuesday (May 26) or Wednesday next week.

Thank you very much.
