Dear Chairman Randazzo and members of the Ohio Power Siting Board:

As a resident of Northeast Ohio, I am proud that my state legislator signed onto the letter to Ohio Power Siting Board (OPSB) Chair Sam Randazzo calling for reconsideration of the feathering condition included in its approval of the Icebreaker Windpower project. This provision is not appropriate - particularly with the recently discovered scandal that included the House Speaker.

I ask that the Board immediately grant LEEDCo's request for reconsideration of the project and remove the poison pill.

The Icebreaker Wind project would result in a strong win for our environment and our economy, helping us combat air pollution and climate change while also creating more than 500 jobs and injecting \$253 million into the local economy. Furthermore, it would put Ohio on the map as a leader in renewable energy technologies as this project would be the first freshwater offshore wind farm in North America. I hope you will support such an important investment in Ohio's future.

Sincerely,
Adrienne Nemura
