---

Hello,

My name is Britny Dennis. I am a resident on a property location on The Ohio State University's campus. Living in the city can be difficult due to the harsh conditions it creates. Many cars causing pollution along with construction machines, factories, and the large population of humans living here. Keeping the environment clean is super important for the us and our planet. We need clean air to breathe and be healthy. We need clean air and resources so the earth can stay healthy as well. Please make the right choice by not allowing this plant to be built.

-Student of Columbus State University
