<p>I am writing to you today to ask you to please take a moment to submit your opposition to the Icebreaker wind turbine project on Lake Erie. The Ohio Power Siting Board issued approval for this project with 33 criteria that must be met. LEEDCO, the entity behind this project, has appealed this decision and the hearing is THIS THURSDAY.</p> <p>Time is truly running out on this issue. If you care at all about the lake I ask you to please follow the links below. We have made it very easy for you to connect to the OPSB site by following the LET YOUR VOICE BE HEARD link below, copy and paste the text (or use your own, just be sure to include the case number), select the Electrical Industry, and submit. We must implore the OPSB to hold strong on their decision.</p> <p>Alternatively, you can also link to OPSB here:  <a href="https://puco.ohio.gov/wps/portal/gov/puco/help-center/contact-us">https://puco.ohio.gov/wps/portal/gov/puco/help-center/contact-us</a></p> <p>Use the statement below, or write your own- just include the CASE number</p> <p>Reference case number: 16-1871-EL-</p>

<p>16-1871-EL-BGN Lake Erie is Ohio's most important single natural resource. It should not be a massive industrial electrical turbine site, especially since it would not benefit Ohio, or Ohio jobs or Ohio investors. The Infrasound from such turbines will be disastrous to Ohioans. Do not allow this. The Ohio Power Siting Board MUST UPHOLD ITS 33 CRITICAL CONDITIONS!!! PLEASE PROTECT LAKE ERIE AND THE HEALTH OF OHIOANS.</p>	John D Brown

<p>I am totally opposed to the LEEDCO wind turbine project in Lake Erie. Relying on wind as a stable source of power in northeastern Ohio is a fantasy and could never be more efficient than clean nuclear power. Ohio and U.S. taxpayers should NOT be forced to subsidize a foreign corporation that wants to profit from cluttering up our Great Lake, endangering bird life, raising our electric rates and reducing our standard of living with unsightly wind turbines.</p>	Cheryl Hahn

<p>16-1871-EL-BGN</p> <p>I believe the State of Ohio has an obligation to protect our natural resources and should regard the protection of Lake Erie as a priority.</p> <p>I do not support the Icebreaker Wind Turbine project. Not only are they an absolute eye sore, they would be manmade hazards to traffic on lake introducing public safety issues, kill a wide variety of bird species, have many potential pollution impacts and have not been proven to be reliable and efficient. Many of these turbines end up deteriorating over time which will be accelerated by harsh Ohio winters. The installation and maintenance costs alone will be VERY high. Those that cannot be maintained will end up being useless eyesores that waste millions of taxpayer dollars. The Cons outweigh the Pros by a wide margin.</p> <p>I am very concerned about the industrialization of Lake Erie. I strongly urge the Ohio Power Siting Board to eliminate permits to build wind turbines on Ohio's greatest natural resource.</p>	
<p>I very much disagree with wind turbines to be located on Lake Erie. This action would have extreme environmental impact on migrating birds and butterflies across the lake and be an horrific eyesore to the natural shoreline. Please reconsider this proposal.</p>	<p>Susan M Gariepy</p>
<p>Please do not support the Icebreaker Project on Lake Erie. Private industry should not have such a strong influence on waters that belong to all of us. Move the project onshore and do not pollute the view of our Great Lake for generations to come. Thanks.</p>	<p>Mike Hill</p>
<p>PLEASE do not support the Icebreaker wind turbine project on Lake Erie. It will be detrimental to our greatest resource and kill countless birds/wildlife. <p>Please do not support the Icebreaker wind turbine project on Lake Erie. There is plenty of vacant land on which to continue this project. Why is creating such an eyesore on our beautiful lake a good thing? Not to mention the detrimental aspects regarding birds/wildlife. The residents of NE Ohio spend countless hours on Lake Erie each year, fishing and boating. The last thing we want to see are 1,100+ turbines polluting our view. Private industry should not have such strong influence on state &amp; local government. Thanks, Mike Hill</p>	Michael Hill

<p>I am opposed to (6) 278 ft tall wind turbines in our great lake. They will kill birds and create navigation hazard. For the amount of power they will create, it is not worth the ruined view. We sailed down the eastern coast of Lake Huron and there were thousands of wind turbines on land. It was horrible.</p>	Karen Kassel

<p>In reference to case number: 16-1871-EL-BGN</p> <p>I do not support the Icebreaker Wind Turbine project. <p>Please to not support case # 16-1871-EL-BGN. The citizens of NE Ohio want to keep our Great Lake beautiful and wind turbines will pollute the view forever. Not to mention killing countless migratory birds. There are thousands of acres of vacant land in Ohio on which to place the turbines. Private \$\$ should not have so much influence over state and local governments. Do the right thing. Thanks.</p>	MICHAEL J HILL

<p>In regards to case no. 20-1432-EL-BLN. First Energy is being investigated and should not be aloud to move further with this project until this investigation is finished. First energy also has a history of filing bankruptcy and walking away from projects and Ashtabula when they are finished. This project will have 1.7 miles of electrical towers along our Lakeshore. I believe there should be a cleanup clause.. Meaning when the project is finished they should not be able to file bankruptcy and walk away they should have to clean up what they put there.</p>	Julie

<p>Please do NOT support case# 16-1871-EL-BGN. It will jeopardize the health and beauty of our Great Lake Erie. Like many Ohioans, I spend countless hours fishing and boating on Lake Erie and the thought of having wind turbines off Cleveland is sickening. The turbines would threaten migrating waterfowl and other wildlife that use lake Erie as a travel corridor. Please do not allow the Icebreaker project to continue. Thanks.</p>	Mike Hill
