PROPOSED INTERACTION WITH CUSTOMERS

EXHIBIT F-4 – PUBLIC INTEREST STATEMENT

PUBLIC INTEREST STATEMENT

The Commission's grant of Magna5 LLC's application will serve the public interest. Competition in telecommunications markets previously served by a single provider will bring great benefit to the people of the State of Ohio because it will lead to efficient pricing, improved service quality, expanded product and service capabilities, and greater reliability. Competition will be further enhanced by the greater efficiencies and more rapid introduction of new technologies in the use of telecommunications service. The granting of a certificate of convenience and necessity to the Applicant will enhance competition and will be in the public interest.

Commission authorization of the Applicant to operate as a non-BLES Competitive Local Exchange Carrier will result in an increase in the diversity of the supply of existing and future telecommunications services and products in the Ohio telecommunications market. Increased choices among providers will promote competitively driven cost-based rates for telecommunications services. Accordingly, Commission grant of the Applicant's application is in the public interest because it will enhance competition, thereby generating the benefits that result from competition such as a more efficient, innovative, technologically advanced, and a diversified telecommunications industry in the State of Ohio.
