PRE-APPLICATION NOTIFICATION LETTER
Angola-Midway 138 kV Transmission Line Relocation Project
Case No. 20-1654-EL-BNR

Dear Ms. Troupe:

In accordance with Ohio Administrative Code (“OAC”) Rule 4906-6-03(A) and OAC Chapter 4906-6 generally, this letter will serve as the pre-application notice letter of applicant American Transmission Systems, Incorporated (“ATSI”), a FirstEnergy company, for the above referenced Project. Applicant expects to file a Construction Notice application shortly.

At the request of the Ohio Department of Transportation, in this Project ATSI proposes to relocate pole structures (5 of which are currently wood and 2 of which are currently steel) on the existing Angola-Midway 138 kV Transmission Line, to allow for the construction of the proposed I-475/US20A Interchange (ODOT Project LUC-475-1.85). The new structures will all be steel and will be located east of the existing Angola-Midway 138 kV Transmission Line outside of the new ODOT Right-of-Way in a new easement.

The Project will be located in the City of Maumee and Township of Monclova, Lucas County, Ohio.

ATSI anticipates beginning construction on this Project as early as February 15, 2021 and completing construction by June 1, 2021, if approved by the Board.

Sincerely,

Scott M. Humphrys
Transmission Siting Supervisor
Energy Delivery Transmission and Substation Design
FirstEnergy Service Company
