Although a waiver has been granted for Lightsource BP to avoid having to face those in our community and share exactly what they propose to do, I wish to say this waiver should be reconsidered and overturned. This waiver blatantly discriminates against those who do not have either an electronic device in which to attend the online public meeting, discriminates against those who do not have high-speed internet in order to properly observe/participate, and discriminates those in our community who are lacking the technological ability/skill set (specifically those of mature age or or senior community) to observe/participate. Please have this waiver rescinded.

Jim Thompson
