This solar project is a very bad idea for this area. They are proposing to put fields of solar panels right into neighborhoods and next to many existing homeowners when it will have a dramatic effect on out properties. Instead of a pristine agricultural area we will have an industrial blight...bad to look at, terrible for the wildlife, drainage issues, etc.. We will be working against this project with the help of our trustees, county commissioners, and state representatives. Thank you. Roger Buzard
