

**Duke Energy Ohio
PUCO Case No. 20-1392-GA-BTA
STAFF First Set of Data Requests
Date Received: November 9, 2020**

STAFF-DR-01-002

REQUEST:

Aviation: Referring to page 8-60 of 16-0253-GA-BTX and 16-0253-GA-BTX / Staff DR-07-002, Duke Energy Ohio indicated that the maximum height of above ground structures would be less than 25 feet (i.e. height of WW Feed Station's heater exhaust stack). Also, page 5-7 of amendment 20-1392-GA-BTA indicates that the height of buildings at the new Highpoint Park Regulation Station would be approximately 15 feet. Does Duke Energy Ohio anticipate any structure heights along the pipeline greater than 25 feet.

RESPONSE: Above-ground structures along the pipeline will not be above 25 feet. Notable structures along the pipeline include the mainline valves, pipeline markers, and AC Coupon test stations. All are under 25 feet in height.

PERSON RESPONSIBLE: James Olberding
