Please consider the the stoppage of this project that will decimate the largest asset we own. Please consider that legislative policy is being presented to update Ohio's alternative energy policies. To halt all major unnecessary public utility projects in light of HB6 and the First Energy fiasco. The project screams back room corruption! No other project in the United State of this size, encompasses so many homes and families of which the effects will be detrimental! Put this project where it belongs, in designated industrial zoning!

I am locked in as I can not get a realtor to list my house for sale. And I do not want to live here anymore if it will be a industrial wasteland. I do not want my children around the emf and runoff leaching into our well. Our tile would collapse and we would have flooding issues. We want out. However, several agencies I've contacted will not touch my property because of this.

NO BIRCH SOLAR!

NO INDUSTRIAL SOLAR FARM IN OUR COMMUNITY AND NEIGHBORHOODS!
