**Subject:** Birch solar project, case number 20-1605-EL-BGN

To whom it may concern. There is an abundance of reasons to why birch solar should NOT be thrust into the proposed area. Here are a few.

\* Eagles, hawks, falcons, deer and coyotes will all be negatively affected in some way or another.

\*Well water contamination

\*Fish/swimming pond contamination.

\*Water run off issues.

\*Cellular service interference. (Safety hazard)

\*Security lights at night and inverter noise.

\*Birch solar has not been forthcoming on many different issues.

\*Property value loss.

\*Visually a horrid nuisance that will devastatingly eradicate our beautiful scenes, lush green crops and the amazing sunsets. The entire reason we live out here in the country and away from cities.

Last but not least...

\*NON-AMERICAN materials! (Need I say more?)

I implore you to make a wise, well educated decision and deny birch solar. Thank you!
