

**Duke Energy Ohio
OPSB Case No. 20-1392-GA-BTA
STAFF Second Set of Data Requests
Date Received: November 13, 2020**

STAFF-DR-02-001

REQUEST:

In the section of the Geotechnical Engineering Report entitled “Photographs of Site Conditions,” photographs 48 through 70 do not seem to correspond with test borings sites. Please mark on a map where these photographs were taken relative to the Central Corridor Pipeline and if it was a corresponding test boring site.

RESPONSE: Photographs 1 through 47 were standard geotechnical test bores and were shown on the map. However, photographs 48 through 70 were actually environmental sample sites, which were performed with a geoprobe rig that takes tubular samples of the soil. STAFF-DR-02-01 Attachment is a map showing the locations of those environmental sample sites.

PERSON RESPONSIBLE: James Olberding
