**Subject:** Birch Solar Project

I am writing as a concerned citizen of Lima, Ohio , near to the proposed Birch Solar Project.

I fully support solar and wind projects but I do not support one of this size, this close to a large population. This project is in and around several neighborhoods full of people. There have not been enough studies as to the noise pollution, damage to the land, and water pollution, as myself and many others out here have wells for their drinking water.

We also have many animals who rely on this land for food and shelter and have no idea what will happen to them.

I encourage you to veto this project due to the sheer size of this project and the closeness to too many people.

Thank you,  
Lisa Paton
