3	Did bidders have sufficient information to prepare for the auction?	Yes. Bidders received information from the competitive bidding process documents, the CBP website, FAQs posted to the CBP website, and a bidder webcast.
4	Was the information generally provided to bidders in accordance with the published timetable? Was the timetable updated appropriately as needed?	Yes. No updates to the timetable were needed.
5	Were there any issues and questions left unresolved prior to the auction that created material uncertainty for bidders?	No.

#	Question	Answer
8	Were there any hardware or software problems or errors, either with the auction system or with its associated communications systems?	No.
9	Were there any unanticipated delays during the auction?	No.

22	Were there factors exogenous to the auction (e.g., changes in market environment) that materially affected the auction in unanticipated ways?	Due to the public health crisis, members of the auction manager team were not co-located for purposes of managing this auction. However, this did not affect the conduct of the auction or the results. We are not aware of additional factors exogenous to the auction that materially affected the auction in unanticipated ways.
