Dear Ohio Administrators!

I swear God! I Pray Christ! I Pray God! Every day.

I didn't touch my phone, neither take him pictures while Mr. Beyer was using his Laser device.

I think Mr. Trooper C Beyer by mistake, in that moment at so many traffic went thru and then he pick on me that I didn't do any illegal to touch phone to take him pictures. At that time, I was traveling on third lane that I had already saw his car in the middle at between $\frac{1}{2}$ mile or $\frac{3}{4}$ mile distance, after I got close by to him, then I saw him using laser device. At that moment couple trucks pass me fast over 65 mph. in the middle lane and then they block my view, After trucks pass me, then I saw him again then along with another one white truck get ready was continue to try pass me, At moment before a truck pass me again in the middle lane, I saw Mr. Beyer put down faster his laser device and he very fast took around traffic west bound, and then he suddenly stare on me. in two second, then he fast pull off middle of the lane follow behind me in the less traffic time.

Thanks you very much!

make God Bless you OPUC,
