Dear Ms. Troupe,

On May 20, 2020, the Public Utilities Commission of Ohio ("PUCO" or "the Commission") issued a Finding and Order in the above-captioned cases granting, in-part, The Dayton Power and Light Company's ("DP&L") COVID-19 Emergency Plan, which included certain waivers of administrative rules to provide relief to customers in light of the COVID-19 pandemic. Specifically, DP&L was granted a waiver of the PIPP Plus rules that require regulated utilities drop active PIPP Plus customers from the program who are not current with their monthly PIPP Plus payments on their accounts' anniversary date.¹ In its August 12, 2020 Supplemental Finding and Order in the above-captioned cases granting DP&L's COVID-19 Comprehensive Plan to Resume Pre-COVID-19 Activities, the Commission directed DP&L to confer with the Ohio Development Services Agency ("ODSA") to determine how and when the eligibility and verification requirements will be reinstated after the moratorium ends and whether missed PIPP payments will be rolled into arrears, then file a notice in these dockets confirming how the PIPP and Graduate PIPP programs will begin to resume their normal operations.

DP&L provided an initial status update on August 21, 2020 and stated that another update will occur by December 31, 2020. This update provides notice that DP&L expects to resume PIPP anniversary drops in March 2021. This provides a fair and reasonable approach of waiving the anniversary drops for a full year. This plan minimizes customer hardships and confusion by waiving the anniversary requirement one time for each PIPP customer.

Sincerely,

Michael J. Schuler

¹ DP&L requested and was approved to make modifications to ensure that customers maintain their eligibility status at their anniversary date during the state of emergency.
