**** DETERMINATION OF NO HAZARD TO AIR NAVIGATION ****

The Federal Aviation Administration has conducted an aeronautical study under the provisions of 49 U.S.C., Section 44718 and if applicable Title 14 of the Code of Federal Regulations, part 77, concerning:

Structure:	Building CHP Building
Location:	Columbus, OH
Latitude:	40-00-07.90N NAD 83
Longitude:	83-01-44.60W
Heights:	750 feet site elevation (SE)
	98 feet above ground level (AGL)
	848 feet above mean sea level (AMSL)

This aeronautical study revealed that the structure does not exceed obstruction standards and would not be a hazard to air navigation provided the following condition(s), if any, is(are) met:

It is required that FAA Form 7460-2, Notice of Actual Construction or Alteration, be e-filed any time the project is abandoned or:

 At least 10 days prior to start of construction (7460-2, Part 1)
 X Within 5 days after the construction reaches its greatest height (7460-2, Part 2)

Based on this evaluation, marking and lighting are not necessary for aviation safety. However, if marking/lighting are accomplished on a voluntary basis, we recommend it be installed in accordance with FAA Advisory circular 70/7460-1 L Change 2.

The structure considered under this study lies in proximity to an airport and occupants may be subjected to noise from aircraft operating to and from the airport.

This determination expires on 10/24/2021 unless:

- (a) the construction is started (not necessarily completed) and FAA Form 7460-2, Notice of Actual Construction or Alteration, is received by this office.
- (b) extended, revised, or terminated by the issuing office.
- (c) the construction is subject to the licensing authority of the Federal Communications Commission (FCC) and an application for a construction permit has been filed, as required by the FCC, within

**** DETERMINATION OF NO HAZARD TO AIR NAVIGATION ****

The Federal Aviation Administration has conducted an aeronautical study under the provisions of 49 U.S.C., Section 44718 and if applicable Title 14 of the Code of Federal Regulations, part 77, concerning:

Structure:	Building W Stack
Location:	Columbus, OH
Latitude:	40-00-07.90N NAD 83
Longitude:	83-01-45.60W
Heights:	750 feet site elevation (SE) 115 feet above ground level (AGL) 865 feet above mean sea level (AMSL)

This aeronautical study revealed that the structure does not exceed obstruction standards and would not be a hazard to air navigation provided the following condition(s), if any, is(are) met:

It is required that FAA Form 7460-2, Notice of Actual Construction or Alteration, be e-filed any time the project is abandoned or:

 At least 10 days prior to start of construction (7460-2, Part 1)

****DETERMINATION OF NO HAZARD TO AIR NAVIGATION FOR TEMPORARY STRUCTURE****

The Federal Aviation Administration has conducted an aeronautical study under the provisions of 49 U.S.C., Section 44718 and if applicable Title 14 of the Code of Federal Regulations, part 77, concerning:

Structure:	Crane Liebherr LR 1200
Location:	Columbus, OH
Latitude:	40-00-07.90N NAD 83
Longitude:	83-01-44.60W
Heights:	748 feet site elevation (SE) 300 feet above ground level (AGL) 1048 feet above mean sea level (AMSL)

This aeronautical study revealed that the temporary structure does not exceed obstruction standards and would not be a hazard to air navigation provided the condition(s), if any, in this letter is (are) met:

****SEE ATTACHMENT FOR ADDITIONAL CONDITION(S) OR INFORMATION****

This determination is based, in part, on the foregoing description which includes specific coordinates, heights, frequency(ies) and power. Any changes in coordinates, heights and frequencies or use of greater power, except those frequencies specified in the Colo Void Clause Coalition; Antenna System Co-Location; Voluntary Best Practices, effective 21 Nov 2007, will void this determination. Any future construction or alteration, including increase to heights, power or the addition of other transmitters, requires separate notice to the FAA. This determination includes all previously filed frequencies and power for this structure.

This determination does include temporary construction equipment such as cranes, derricks, etc., which may be used during actual construction of a structure. However, this equipment shall not exceed the overall heights as indicated above. Equipment which has a height greater than the studied structure requires separate notice to the FAA.

This determination concerns the effect of this temporary structure on the safe and efficient use of navigable airspace by aircraft and does not relieve the sponsor of compliance responsibilities relating to any law, ordinance, or regulation of any Federal, State, or local government body.

A copy of this determination will be forwarded to the Federal Aviation Administration Flight Procedures Office if the structure is subject to the issuance of a Notice To Airman (NOTAM).

Re: Approval Under Ohio EPA National Pollutant Discharge Elimination System (NPDES) - Construction Site Stormwater General Permit - OHC000005

Dear Applicant,

Your NPDES Notice of Intent (NOI) application is approved for the following facility/site. Please use your Ohio EPA Facility Permit Number in all future correspondence.

Facility Name:	DHC CHP Plant
Facility Location:	NE Corner of John Herrick Dr & Vernon Tharp St
City:	Columbus
County:	Franklin
Township:	
Ohio EPA Facility Permit Number:	4GC07235*AG
Permit Effective Date:	Mar 16, 2020

Please read and review the permit carefully. The permit contains requirements and prohibitions with which you must comply. Coverage under this permit will remain in effect until a renewal of the permit is issued by the Ohio EPA.

If more than one operator (defined in the permit) will be engaged at the site, each operator shall seek coverage under the general permit. Additional operator(s) shall submit a Co-Permittee NOI to be covered under this permit. There is no fee associated with the Co-Permittee NOI form.

Please be aware that this letter only authorizes discharges in accordance with the above referenced NPDES CGP. The placement to fill into regulated waters of the state may require a 401 Water Quality Certification and/or Isolated Wetlands Permit from Ohio EPA. Also, a Permit-To-Install (PTI) is required for the construction of sanitary or industrial wastewater collection, conveyance, storage, treatment, or disposal facility; unless a specific exemption by rule exists. Failure to obtain the required permits in advance is a violation of Ohio Revised Code 6111 and potentially subjects you to enforcement and civil penalties.

To view your electronic submissions and permits please Logon in to the Ohio EPA's eBusiness Center at <http://ebiz.epa.ohio.gov>.

If you need assistance or have questions please call (614) 644-2001 and ask for Construction Site Stormwater General Permit support or visit our website at <http://www.epa.ohio.gov>.

Sincerely,

Laurie A. Stevenson
Director

894 WOODY HAYES DR
COLUMBUS OH 43210

Dear Customer:

Your application for Inspection without sealed plans for the above mentioned project has been reviewed and accepted. You may proceed with the work and please call for necessary inspections whenever you are ready. Please have the above mentioned project number ready when calling for inspection.

Any supporting documents included in this letter MUST be available on site for inspectors. Failure to have these documents available at the time of inspection may result in a \$150.00 re-inspection fee. A Certificate of Use and Occupancy will be issued after all necessary inspections have passed. You may use the approved building system or components or occupy the portion(s) of the building once you receive the certificate.

Please call our Dispatch Office at 1-800-822-3208 weekdays between 8:15 AM and 2:30 PM to schedule the inspections.

If you have any further questions and/or need further assistance, please contact the Bureau of Building Code Compliance at (800) 523-3581 or (614) 644-2622.

Sincerely,

A handwritten signature in black ink, appearing to read "Geoffrey D. Eaton", is located below the "Sincerely," text.

Subject: APPLICATION FOR TEMPORARY CONSTRUCTION PERMIT
Aeronautical Study No: 2020-DOT-3425-OE (2020-AGL-20147-OE)

To Whom It May Concern,

In response to the application concerning the proposed temporary construction described above, an independent study has been conducted under provisions of Ohio Revised Code Chapters 119 and 4561 to determine whether the proposed temporary construction would be an obstruction to air navigation. The findings of that study are as follows:

The proposed temporary construction falls outside the limits set forth in Section 4561.32 of the Ohio Revised Code and does not require a permit from this office. However, this does not exempt you from coordinating with local zoning authorities regarding compliance with established zoning ordinances. This also does not exempt you from your requirement to obtain a building/construction permit from the local/state building permit authority having jurisdiction.

If you have any questions, please call (614) 466-6804 or Toll Free (855) 867-1852.

Respectfully,

ODOT Office of Aviation
