I live close to the proposed site of the Birch Solar Panels. Due to a severe respiratory problem of a residing family member, I am wanting to know the full DETAILS on how this company plans to control the air pollutants that they will generate. I would also like to know how they will maintain the road conditions close to, and around, the construction site. I would also like to know how they will control the amount of heavy truck traffic, construction traffic that will be during that time.

Lori Meyer
