YOUR RESPONSIBILITIES AND OURS

The Customer will install, if not already installed, and maintain at his/her own expense all service lines in the premises, and the Company shall own and maintain at its expense all mains and other facilities used in rendering service.

PAYMENT OF BILLS

1. Each customer is liable for the payment of sewer service provided to his premises until he has paid his final bill for all charges of any kind due under this tariff.
2. Bills will be rendered monthly and shall indicate the monthly consumption charge. The bill will state the water meter reading at the end of the period and the consumption. The word "monthly" as used herein and in rate schedules is hereby defined to be the elapsed time between two successive billings rendered approximately 30 days apart. The bill will be due and payable fifteen (15) days after the date the bill is mailed to the customer, or the first business day thereafter if the 15th day falls on a Saturday, Sunday or public holiday.

All bills and charges due the Company shall be paid at the Company's office, or by mail at the Company's address as provided on each bill.
4. When the customer desires sewer service to be discontinued either temporarily or permanently, he shall so notify the Company at the Company's office. A bill will then be rendered by the Company to date after the reading of the water meter is obtained. Such

DISCONNECTING YOUR SERVICE

We may disconnect your service without your request and without notice only for the following reasons:

1. For tampering with any main, or other appliance under the control of, or belonging to, the Company;
2. For connecting the customer service line, or any pipe directly or indirectly connected to it, to any lines or pipes carrying or which are in a position to carry, clean waters, other non-sewage wastes, or unacceptable sewage; or
3. For any other violation, or failure to comply with, the regulations of the Company which may, in the opinion of the Company or any public authority, create an emergency situation.

We may disconnect your service without your request by giving you 24-hour written notice for the discharge of any type of sewage not stated in the application, or for the use of the service upon any premises not stated in the application.

Personal delivery of the notice to the customer's premise shall first be attempted and, only if personal service cannot be accomplished at that time, the notice shall be securely attached to the premises in a conspicuous manner.

We may disconnect your service upon 14 days written notice for any of the following reasons:

1. For non-payment of any tariffed charges when due or within any additional period for payment permitted by the Company, or for not making a deposit as required. Disconnection of service for non-payment may not occur prior to fourteen days after the due date;
2. For any violation of, or failure to comply with, the regulations of the Company other than for those reasons where no notice is required;
3. For misrepresentation in the application as to any material fact;
4. For denial to the company of reasonable access to the premises for the purpose of inspection; or

5. For violation of federal, state, or local laws or ordinances where such violation affects the provision of utility service.

SERVICE RECONNECTION FEE

If service has been discontinued, there may be a service reconnection charge. The charge will be based on the actual out-of-pocket cost to the Company for reconnecting your service.
