Subject: In Support of Birch Solar Farm, Case No: 20-1605-EL-BGN

I am writing to express my support for the Birch solar project's application with the Ohio Power Siting Board.

Hello my name is Brandon Miner. I am an owner of start-up business called Down to drone LLC and an FAA certified drone pilot. we are a startup business located in Uniontown, OH that is specializing in aerial inspections of solar panels by using drone technology to get thermal and visual views of solar panels. The reason I started this business was to help find and solve issues with solar panels so that companies who produce solar energy protect their investment. Providing clean energy for Ohio strengthens the local economy with increased annual revenue and increases job growth. If there is any opportunity for my business to be involved with inspection of this facility please contact me via cell (330)631-1581 or via email.
