Water Run Off / Lima Project

Susan Fantz <sfantz@woh.rr.com>
2:20 PM (7 minutes ago)
to birchsolar

Attention: David Powell

I live near your proposed Lima, Oh. project and have a concern I wish to have placed on record. If your project is granted and moves forward I am very concerned the water run off and greater accumulation of water will cause flooding on the back of my property and that of my mothers property as well as other neighbors in the Twillingate Subdivision and Shalloway Dr, Lima, Oh.

Our properties have a history of flooding with extreme rains which happen more frequently the past few years. The ditch/creek where our water drains is already over taxed so additional water run off from your panels will surely cause more flooding and could cause the water to come into our homes. I feel the solar project will have culpability if we experience damage from increase water run off to that ditch which will back up into our yards and maybe homes. This needs to be discussed and you need to see the area of my concern and discuss this with us soon. I need to know who else I register this concern with so I have recourse if this project moves forward and as I predict, causes more flooding and damage to our home values. We have marked the highest points the water has ever risen in the past which may prove helpful in the future.

I await your response.

Sincerely,

Susan Fantz and Joan Kuck
