Richard E. Shaw Jr
Ward 1 City Council

February 16, 2021

Dear PUCO Commissioners,

Please accept these comments as "Supportive" toward The Dayton Power and Light Co. (DP&L), a subsidiary of The AES Corp., and the proposed Smart Grid Modernization plan. The proposal will allow more precise technology enhancement along with improved communication and control between DP&L and its customers.

Dayton Power & Light has partnered with the municipalities by pledging nearly \$249 million in capital projects, including the building of "smart usage meters" to enhance the growing Electric Vehicle market in the Dayton Region. Such improvement will help residents with data regarding their energy use, reduce utility operating expenses and lead to more timely restoration of power outages.

I ask that the PUCO Commissioners "Accept" the proposed Smart Grid Modernization plan and allow this regional partner to enhance the lives of our residents and further partner with our business community.

Respectfully submitted,

Richard E. Shaw Jr
City Councilmember Ward 1
