

**Duke Energy Ohio
Case No. 21-0113-GA-BNR
Staff First Set Data Requests
Date Received: February 16, 2021**

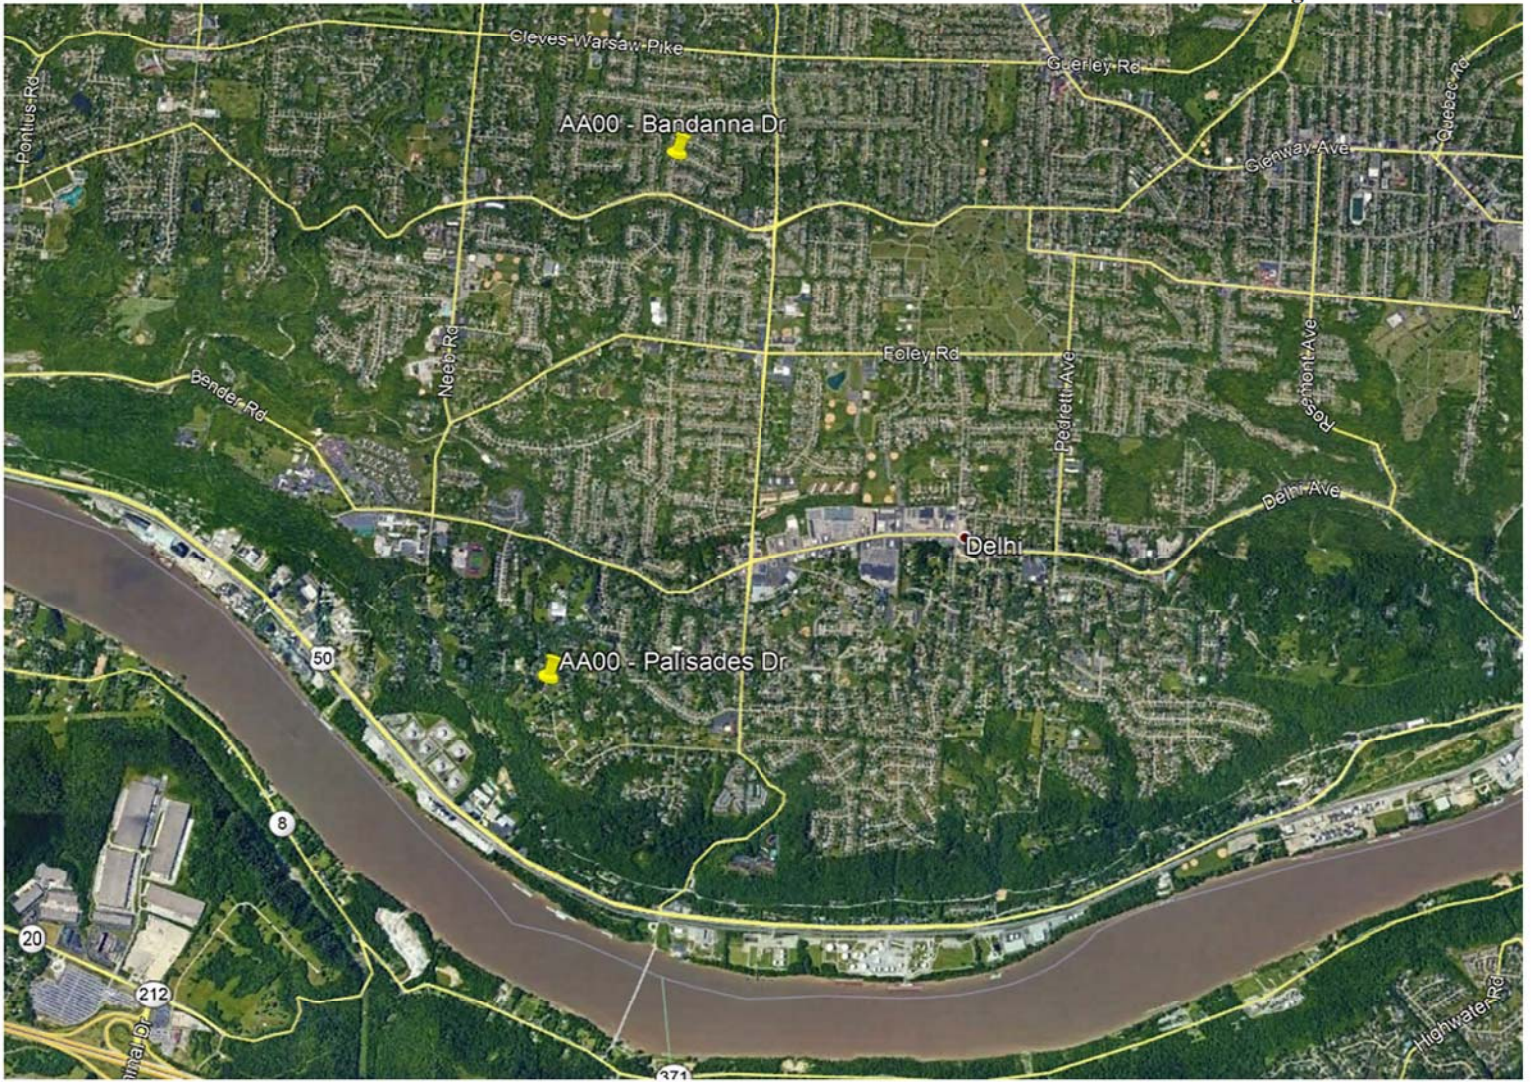

STAFF-DR-01-001

REQUEST:

I noticed this 800' project is scheduled to begin in March and end in September. This OPSB project appears to be part of a larger Duke project. If you would please, provide me with an overview map of the parent project and any other associated OPSB case numbers.

RESPONSE: The Line AA00 – Palisades Drive project is one of two related but separate pipeline replacements proposed at this time on Line AA00. The other project is located approximately 2 miles to the north along Bandanna Drive. We expect to file for the Bandanna Drive project in early March, once our design drawings are prepared and our easements are acquired. Please see STAFF-DR-01-001 Attachment for an overview map of the parent project (Line AA00).

PERSON RESPONSIBLE: John Perkins
