Columbia Gas of Ohio, Inc.
Case No. 18-1802-GA-ABN

SUMMARY

On December 5, 2018, Columbia Gas of Ohio, Inc. (Columbia) filed an application seeking to abandon service to eighteen premises in Hamden, Wellston, Jackson, Oak Hill, Kitts Hill and Ironton, Ohio. These customers are served via farm taps to premises through a direct tap on Columbia Gas Transmission, LLC's (Columbia Transmission) Line R-501, R-500 and R-530 which are high pressure, interstate transmission pipelines. Columbia Transmission informed Columbia that a portion of Line R-501, R-500, and R-530 will be abandoned and replaced with new coated steel pipeline. This replacement prompted Columbia Transmission to abandon farm taps on the lines. Columbia has determined that it is not economically feasible to maintain natural gas service to the farm tap customers by extending Columbia's distribution system to serve the eighteen premises in question.

The affected property owners have agreed to a disconnection and abandonment of service, and have been compensated to convert to an alternative fuel source.

STAFF REVIEW

Staff has reviewed the application filed in the above case and finds it to be reasonable and in the public interest.

STAFF RECOMMENDATION

Staff finds that the application filed by Columbia is reasonable and should be approved.
