Concerning the Birch Solar 1 Farm purposed by Lightsource BP in Allen County, OH. 20-1605-EL-BGN

My husband and I are residents of Allen County OH. Our address is 3610 Bowsher Rd. The proposed Birch Soar Farm will surround three sides of our property.

We understand the necessity of the development of renewal energy sources.

Please require Lightsource PB to follow the recommended guidelines from Interstate Informed Citizens Coalition. That recommendation calls for **500** feet set backs from **all roads and lot lines**. The proposed plan allows for just **300** feet from the **our front door not the property line as recommended.**

The 500 foot setback from roads and property lines would have a very positive impact on preserving the quality of life around the the Birch Solar Farm1.
