**Re: Pre-Application Notification Letter
In the matter of the Construction Notice Application of
AES Ohio for a Certificate of
Environmental Compatibility and Public Need for the
Hutchings 138kV Reactor Project
Ohio Power Siting Board Case No. 21-0152-EL-BLN**

Dear Docketing:

The Dayton Power and Light Company d/b/a AES Ohio (“AES Ohio”) files this Pre-Application Notification Letter for the above-referenced Project pursuant to Rule 4906-6-03(A) of the Ohio Administrative Code.

AES Ohio is proposing the Hutchings 138kV Reactor Project (“Project”) located in Miamisburg, Montgomery County, Ohio. This transmission station is expanding by more than 20% of the existing fence line on property owned by AES Ohio. The purpose of this Project is to install a 138 kilovolt (kV) shunt reactor at Hutchings Substation for voltage control. The new equipment is being added to control high voltages occurring during light load periods.

In accordance with Ohio Administrative Code (OAC) Rule 4906-06-02, 4906-6-05 and the Appendix 4906-1-01, this Project falls within the Ohio Power Siting Board (OPSB) requirements for a Letter of Notification (LON) application.

AES Ohio anticipates that construction of the Project will begin August 23, 2021, pending approval of this Construction Notice. The anticipated in-service date for the Project is December 31, 2021.

Please feel free to contact me if you have any questions regarding this notification letter.

Respectfully submitted,

ss:/ *Randall V. Griffin*
