Look at what is happening in Essex County right now with all the sediment runoff from their industrial solar monstrosity. Absolutely no respect for peoples personal property. What we have poured our money, heart, soul into. What we have raised our family in. All for what? The greed of others. What an absolute shame the greed of the few farmers who are selling out their family legacy. To destroy their communities and potentially kill their neighbors. My property sits 1/4 mile into a field. I will be 100% encapsulated. 4 sided impact... 1/4 mile in. I urge you to Google my house 4161 S. Kemp Road cridersville oh 45806. What do you think will happen to my family, my young children, when one of these catch on fire? What of a tornado hits and we have thousands of these panels thing hurled through my house. We will be trapped to die a slow death. What if when,because it will, the land floods and my property which has had no issues with flooding will be a complete loss. If you people even have a heart or even read these comments, which I doubt you do you will not approve this monstrosity. The land is zoned for agricultural NOT INDUSTRIAL. I would rather be surrounded by miles of pig farms than solar panels. WHEN I BOUGHT MY PROPERTY 2 YEARS AGO I WAS NOT BUYING IT TO LIVE IN AN INDUSTRIAL ZONE, BUT AGRICULTURAL ZONE.

How is this even legal? My parents had to hold several town meetings allowing their neighbors to oppose their 7 solar panels they put on their roof . With this birch solar theres more opposition from the community than there is an acceptance of it. Please do whats right for the community and deny this project.
