---

To the Ohio Power Siting Board. I and my neighbors are being denied due process by this board, by the granting of waivers of notification that should be sent to each and every resident inside of the footprint of all projects in Clinton and Highland Counties and to all Counties in the State of Ohio involved in any and all renewable energy projects. We have rights under the Ohio Constitution that should not be usurped by large corporations with high priced attorneys that have used artful means to grab valuable farmland and, in the process, rendered our State's Constitution useless. These companies come into our communities, strangers to us, driving large dangerous equipment endangering us, damaging roads and ditches. Littering our yards and fields with plastic bottles, paper cups and trash. We are entitled to due process and expect the OPSB to grant that to us. To be clear we are against these solar power plants going up next to our homes and communities.
