Dear Ms. Troupe:

In the Company's *ESP IV* proceeding (Case No. 16-1852-EL-SSO et al.), the Commission authorized the Distribution Investment Rider (DIR) as part of its April 25, 2018 Opinion and Order. As part of the Commission's approval of the DIR, it ordered that the Company include additional information in its filing based on the recommendation of the Staff. The Company has complied with this order and included the additional information in this filing

The Company submits its DIR adjustment based on investment data from the FERC Form 1 for the 4th quarter of 2020. Included in the adjustment is the over/under recovery for December 2020 plant actual balances. Through its May 28 *ESP III* Second Entry on Rehearing Order, the Commission established the DIR annual cap allowance. The Company is including calculations on the DIR Cap analysis schedule that increases the 2020 cap by the difference between the 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019 and 2020 DIR revenue and the approved \$86,000,000 2012 cap, prorated to represent the partial year, \$104,000,000 2013 cap, \$124,000,000 2014 cap, \$145,000,000 2015 cap, 165,000,000 2016 cap, \$190,000,000 2017 cap and \$215,000,000 for the 2018 cap. The Company's calculations reflect the Commission's April 25, 2018 entry in Case No. 16-1852-EL-SSO (*ESP IV*), which set the 2019 cap at \$240,000,000 and the 2020 cap at \$265,000,000. In compliance with *ESP IV*, starting in 2019, the unused revenue cap from the prior year will be limited up to \$5 million for carryover to the following year.

On November 13, 2013, the Commission approved the Company's proposal to include the Deferred Asset Recovery Rider (DARR) under-recovery true-up in the DIR rates effective Cycle 1 December 2013. In this DIR filing, included in the true-up of the DIR revenue collected in December 2013, the Company has adjusted the

DIR Over/Under calculation to exclude the revenue attributable to the DARR under-recovery revenue requirement.

On March 14, 2018, the Commission approved a joint stipulation that purports to resolve all the issues in the consolidated DIR cases (the 2013 DIR Case, 2014 DIR Case, and 2015 DIR Case). The Approval includes a one-time reduction of the DIR revenue requirement to address the timing of AEP Ohio's implementation of the capital repairs deduction, to be reflected in the 1st Quarter 2018 DIR update.

The *ESP IV* order approved the Company to recover the cost of annual compliance audit. Starting with the second quarter of 2019, the Company included audit fee payments as an offset to the DIR billed revenue.

On June 17, 2020, the Commission adopted and approved the stipulation in Case Nos. 17-38-EL-RDR and 18-230-EL-RDR. In compliance with the stipulation, the Company reconciled the DIR account balances to the FERC Form 1 within the DIR filings. The Company confirmed that no such difference existed.

On January 13, 2021, the Commission approved the Company's request in Case No. 12-1969-EL-ATS regarding termination of the Deferred Asset Phase-In Rider (DAPIR) and its pass back mechanism of remaining over-collection of approximately \$277,250. The order allowed the Company to flow the remaining over-recovery of the DAPIR through the revenue requirement of the DIR. As such, the \$277,250 is included as a one-time credit in the 4th Quarter 2020 DIR update.

The Company is in the process of evaluating and implementing operational practices which conform to its capitalization policy. As of June 30, 2020, the Company has added two retirement units for a Pedestal and Cabinet. As of September 30, 2020, the Company has made updates to its systems to account for clarifications made to Accounting Bulletin 6 (Accounting for Relocations and Rearrangements Made in Connection with Construction and Replacement) to distinguish between the relocation/rearrangement of an asset and the re-attachment of existing equipment to an asset as part of a capital job. Similarly, the Company has made updates to its systems to account for the aspects of a job that are necessary for the completion of the capital project, such as the labor required for transferring service during a capital job. The Company has also implemented a process which now allocates the cost of small tools and personal protection equipment (PPE) between capital and O&M based on employee labor. The Company estimates that the implementation of these operational practices in conformity with the Company's capitalization policy would have resulted in an approximate \$491 thousand increase of annual revenue requirement. Since the Company has already reached the annual revenue cap limit beginning in March 2020, the increased plant balance as a result this change would not increase the revenue requirement until 2021 revenue caps are in place.

Through its order on November 28, 2012 in Case No. 12-2627-EL-RDR, the Commission clarified that future DIR filings should be automatically approved 60 days after the application is filed, with the new rate to take effect on the proposed effective date, unless the 60-day period is suspended by the Commission. The Company is updating its DIR to be effective on the first billing cycle of August 2021 unless otherwise ordered by the Commission.

Regards,

/s/ Steven T. Nourse

Note 2:

During the GS II audit, the Company learned that the Phase II Rider should recover Phase II meters, the additional 22,000 meters that were installed to optimize the Phase I area, as well as all replacement and in-stock AMI meters (The February 1, 2017 GS2 Order in Case No. 13-1939-EL-RDR, page 14). The Phase I AMI Meters should be collected through the DIR based on the ESP III order. Upon review of the AMI account, it was determined that the replacement meters and in stock meters have not been included in the Phase II rider as the Company was only pulling the gridSMART Phase II tag from the owned asset system and using the 22,000 additional AMI meters. Effective with March plant, the Company began to track through the Phase II rider the total NBV of AMI meters less the Phase I NBV meters. The DIR excludes the Phase II meters and as such the change was made in the DIR at the same time to assure no double recovery.

* The Revenue Requirement figure is the monthly amount assessed by a rate of the DIR calculation based on DIR share every month.

** DIR assumes for purposes of the DIR calculation that Billed DIR amounts equal revenues received.
