---

Will you allow solar farms to destroy our beautiful state of Ohio as well as the counties of Clinton and Highland? Will you permit the destruction of an agricultural community that has existed since the beginning of time? Will you permit the demise of our health and water quality? Will you support ruining the habit for wildlife in our communities? Will you imprison long time residents in solar panels and razor wire? Will you permit a few to profit( many not even living in the community) while longtime residents lose property values, peace, solitude, and years of investment? Will you destroy the health and water quality of our beautiful counties? I pray Mr. Butler you make the right decision that affects thousands of longtime residents for eternity.

Larry Martin
