---

I am a resident of Shawnee Township and have lived here for almost fifty years.

I am excited to hear about the proposed Birch Solar Farm. Both my brother-in-law in Pennsylvania and my distant family in Germany have solar panels installed on their properties and I know from their experiences that the panels are safe and generate significant amounts of clean energy. And, as I am concerned about the environment, I appreciate all efforts being made to halt the progress of global warming.

I am also excited to think of the increased revenue the Birch Solar Farm will bring to local schools and governments.

I am not concerned about the proposed farm but appreciate the role the OPSB plays in vetting the proposal and deciding whether to approve it or not. If the OPSB approves the project, I am fully prepared to welcome it here in our part of the county.
