Subject: Approve Emerson Creek and Republic Wind!

Dear Chairwoman French,

I live in Northern Ohio where two proposed wind projects, Emerson Creek (Docket No. 18-1607-EL-BGN, Emerson Creek) and Republic (Docket No. 17-2295-EL-BGN, Republic Wind), have been under consideration and thorough review by the Ohio Power Siting Board. These projects will provide tens of millions of dollars to the local community, good jobs, and affordable electricity for the grid.

I couldn't help but notice that Senator Reineke and Representative Click have chosen to appease a loud, vocal minority of wind opponents by interfering in the thorough process of your Board. This is an outrageous and transparent eleventh hour attempt to delay these projects and keep them from going through the process prescribed by Ohio law.

To be clear, my neighbors and I support these projects and demand that they be considered by the Ohio Power Siting Board fairly and expeditiously. We can't let politics interfere with the property rights of Ohioans or the fair process prescribed by Ohio law.

I urge you to vote and approve these projects and unleash this economic development in our community.

Regards,
Camryn Harben
