In the Matter of the Application of Ross County Solar, LLC for a Certificate of Environmental Compatibility and Public Need

Case No. 20-1380-EL-BGN

PROOF OF NOTICE OF PUBLIC INFORMATION MEETING

Ross County Solar, LLC hereby certifies that the notice regarding the September 30, 2020 public information meeting attached hereto as Exhibit A was sent to the addresses listed in Exhibit B on September 8, 2020 via first class mail. In addition, notice was published in the Hillsboro Times Gazette and Chillicothe Gazette, newspapers of general circulation in the project area, on September 18, 2020 and September 19, 2020, respectively. Proofs of publication are attached hereto as Exhibit C.

Respectfully submitted,

/s/ Michael J. Settineri Michael J. Settineri (0073369), Counsel of Record Mark A. Hylton (0088384) Vorys, Sater, Seymour and Pease LLP 52 East Gay Street P.O. Box 1008 Columbus, Ohio 43216-1008 614-464-5462 614-719-5146 (fax) mjsettineri@vorys.com mahylton@vorys.com

Attorneys for Ross County Solar, LLC

CERTIFICATE OF SERVICE

The Public Utilities Commission of Ohio's e-filing system will electronically serve notice of the filing of this document on the parties referenced on the service list of the docket card who have electronically subscribed to the case. In addition, the undersigned certifies that a courtesy copy of the foregoing document is also being sent via electronic mail on September 28, 2020 to:

> /s/ Michael J. Settineri Michael J. Settineri

Counsel for Staff of the Ohio Power Siting Board

September 8, 2020

Re: Join us for an Online Ross County Solar Project Public Information Meeting

Dear ______,

We hope this letter finds you and your family healthy and well. We are contacting you as an adjacent landowner or tenant to invite you to a Public Information Meeting for the Ross County Solar Project. The Ross County Solar Project Public Information Meeting will replace the traditional in-person Public Information Meeting for this Project due to the COVID-19 pandemic. The health and safety of community members near our projects is very important to us, as is the dissemination of information regarding our planned local solar energy development. For these reasons, we invite you and your neighbors to attend the online session, a phone session, or contact us directly with questions or for additional information (details below).

About the Project

The Ross County Solar Project is a proposed up to 120 megawatt (MW) solar energy project under development east of the Village of Greenfield in Ross County. The Project will maximize energy production from solar resources to deliver clean, renewable electricity to the regional transmission system to serve the needs of electric utilities and their customers. Ross County Solar, LLC, is a subsidiary of Geronimo Energy, a National Grid Company. Geronimo Energy has successfully developed renewable energy projects throughout North America - and we look forward to presenting this project to you and other community stakeholders.

Public Information Meeting Logistics

We are planning an approximately one-hour-long online session for the Ross County Solar Project Public Information Meeting on September 30th at 6:00 PM EDT.

- ✓ The Public Information Meeting will be structured as a presentation about solar energy, Geronimo Energy, the Ross County Solar Project, and the Ohio Power Siting Board permitting process.
- ✓ Speakers include Geronimo Energy experts, as well as outside consultants.
- ✓ Throughout the session, we will be answering written questions from attendees.
- ✓ Following the session, Geronimo Energy will post a compilation of the information session's Q&A, as well as a recording of the information session on the project's webpage at https://geronimoenergy.com/ross-county/.

How to Register for the Public Information Meeting

Geronimo Energy is utilizing the GoToWebinar platform to host this Public Information Meeting. We highly recommend registration to maximize your experience. If you would not like to register, a separate link will be provided on our website to view the meeting via a live stream option.

1. Prior to the Event Date

Please navigate to the project's webpage, <u>https://geronimoenergy.com/ross-county/</u>, where there is a link to register for the event.

2. After You Register

Upon completing the online registration form, you will be sent a confirmation email with a link for the live event. <u>Save this email and mark your calendar</u> so you have this information on the evening of the session.

(See Page 2 for Additional Details)

EXHIBIT A

3. On the Date of the Meeting

Open the confirmation email you received from GoToWebinar and click on the link provided. You will be directed to the online event webpage. If you miss the meeting, a video recording will also be available via the Project website.

Using GoToWebinar

We encourage you to learn how to use GoToWebinar by visiting this website: <u>https://support.goto.com/webinar/how-to-join-attendees</u>.

Alternative Phone Based Meeting

An alternative phone-based meeting will be held on September 30th at 8:00 PM ET. At the time of the phone-based meeting, please call (571) 317-3112 and enter Access Code 879-752-485#. Paper copies of presentation materials have been included along with this letter for your convenience.

Ohio Power Siting Board Process

Under Ohio Law, electric generating facilities capable of producing 50 MW or more must apply for a Certificate of Environmental Compatibility and Public Need from the Ohio Power Siting Board (OPSB). The OPSB provides for a single unified process by which facilities can obtain a certificate to operate. Generally speaking, the OPSB process includes a public information meeting, submittal of certificate application, 60-day staff completeness review, application acceptance, OPSB staff review and recommendation, public hearing, adjudicatory hearing, and certificate issuance/denial. There are various avenues for public participation throughout the permitting process. This includes commenting on the docket, attending public hearings, and more. You are also welcome to contact the OPSB directly for more information, and opportunities to stay informed regarding the process are listed to the right. Should you require GoToWebinar technical assistance at any time:

- Visit the support webpage: <u>https://support.goto.com/we</u> <u>binar?labelid=4a17cd95</u>
- ✓ Chat Support: https://support.goto.com/AD
 D YOUR UNIQUE WEBINAR # HERE
- ✓ Toll Free Phone: +1(833) 851-8340

OPSB Contact Information

Ohio Power Siting Board 180 E Broad St Columbus, OH 43215 Phone: (866) 270-6772 opsb.ohio.gov contactOPSB@puco.ohio.gov

Looking to stay informed regarding the OPSB process?

- You will receive additional notification regarding the process, including public hearings.
- ✓ Follow the online case docket: <u>http://dis.puc.state.oh.us/CaseR</u> <u>ecord.aspx?CaseNo=20-1380</u>
- Subscribe to OPSB meeting notices: <u>https://public.govdelivery.com/a</u> <u>ccounts/OHPUC/subscriber/new</u>

We look forward to introducing the Ross County Solar Project to you and your community. We have presupplied meeting materials and a pre-paid envelope to comment on the Project for your convenience. Should you have any additional questions or wish to speak to a member of our staff, please contact us at <u>rosscountysolar@geronimoenergy.com</u> or at 937-519-2007. You can also mail us at the address listed at the bottom of the page.

Sincerely,

Derek Hasek Sr. Developer, Market Lead 952-641-4038 dhasek@geronimoenergy.com

William Risse Permitting Specialist 952-300-9476 wrisse@geronimoenergy.com

Notice of Public Information Meeting for Proposed Major Utility Facility

Ross County Solar, LLC, a subsidiary of Geronimo Energy, LLC, a National Grid Company, has scheduled a Public Information Meeting for Wednesday, September 30, 2020 to outline plans to build the Ross County Solar Project (the "Project"). The proposed Project is located in Ross County, Ohio and will have a maximum total project generating capacity of up to 120 megawatts. The general purpose of the Project is to maximize energy production from solar resources to deliver clean, renewable electricity to the regional transmission system to serve the needs of electric utilities and their customers. Ross County Solar anticipates filing its application with the Ohio Power Siting Board in October of 2020. Construction is estimated to begin as early as 4th quarter of 2021, with commercial operations in 2022.

Due to the ongoing public health crisis, the public information meeting will be held remotely on Wednesday, September 30, 2020, beginning at 6:00 pm. An alternative phone-based meeting option is also available (details below). A link to participate in the online session or alternatively view the session without registration is available via the Project website at <u>https://geronimoenergy.com/ross-county/</u>. A video recording of the presentation will be posted to the website following the meeting. Comments will be solicited live during the meeting and can also be submitted following the meeting.

If you do not have access to internet, and would like to learn more about the Project, an alternative call-in based meeting will be held on September 30, 2020 at 8:00 PM. At the time of the phone-based meeting, please call (571) 317-3112 and enter Access Code 879-752-485#.

If you have questions, would like to obtain paper copies of presentation materials, or to comment via mail, please call Ross County Solar at 937-519-2007.

Re: Ross County Solar Project Application for a Certificate of Environmental Compatibility and Public Need – Notice of Proposed Major Utility Facility.

[Salutation]

We hope we continue to find you and your family healthy and well. We are contacting you to provide you with additional details regarding the Ross County Solar Project. We very much appreciated the public feedback you or your neighbors provided at the September 30th, 2020 Public Information Meeting, and we look forward to continued collaboration with the community as we move toward construction and long term operation of the Project. Below you will find information regarding our company, where we are at in the Ohio Power Siting Board process, and information regarding upcoming public hearings on the Project.

About the Project

Ross County Solar, LLC (Ross County Solar), a subsidiary of National Grid Renewables (formerly Geronimo Energy, LLC, a National Grid Company), proposes to develop, build, and operate the Ross County Solar Project (Project), an up to 120 megawatt solar-powered electric generation facility (Facility) to be located in Ross County, Ohio. The general purpose of the Project is to maximize energy production from solar resources in order to deliver clean, renewable electricity to the Ohio bulk transmission system to serve the needs of electric utilities and their customers. The Project will span approximately 1,400 acres. The Project is anticipated to positively impact both the local economy and environment by producing significant tax revenue and other economic benefits for the area, and offsetting carbon dioxide emissions by an estimated 162,500 metric tons each year - the equivalent of taking approximately 35,000 cars off the road. The Facility will consist generally of the fenceline, photovoltaic (PV) panel arrays, electrical collection lines, inverters, access roads, a substation (which includes transformers), an operations and maintenance (O&M) building, weather stations, and laydown yards. The Facility will deliver power to a single point of interconnection at the existing Buckskin 69 kilovolt (kV) substation. The point of interconnection will consist of a short gen-tie line from the Facility substation to the Buckskin substation, where the line will connect to a new 69 kV breaker bay within the existing substation. For additional information regarding the Project, don't hesitate to contact Ross County Solar directly at 937-519-2007 to walk through details of the Project. For your convenience, we have included the map below showing the location and general layout of the Project.

Ross County Solar's Application to the Ohio Power Siting Board

Ross County Solar has filed with the Ohio Power Siting Board (Board) an application for a Certificate of Environmental Compatibility and Public Need to construct, operate, and maintain the Project in Case No. 20-1380-EL-BGN, which is now pending before the Board. Copies of the application were served upon the Ross County Board of Commissioners, Buckskin Township Board of Trustees, Paint Township Board of Trustees, Ross County Soil and Water Conservation District, Ross County Planning and Building Department, and Greater Chillicothe and Ross County Development. A copy of the application was also provided to and is available for public review at the Chillicothe and Ross County Public Library (Main Library) in Chillicothe. The full case record can be found via the Board's website at https://dis.puc.state.oh.us/CaseRecord.aspx?Caseno=20-1380&link=Dl. Alternatively, a link to the Board's website at https://dis.puc.state.oh.us/CaseRecord.aspx?Caseno=20-1380&link=Dl. Alternatively, a link to the Board's website at https://dis.puc.state.oh.us/CaseRecord.aspx?Caseno=20-1380&link=Dl. Alternatively, a link to the Board's website at https://dis.puc.state.oh.us/CaseRecord.aspx?Caseno=20-1380&link=Dl. Alternatively, a link to the Board's website at https://nationalgridrenewables.com/ross-county/. To obtain additional information about obtaining a hard copy of the application or to request help accessing electronic records, reach out to Ross County Solar directly at 937-519-2007. You can also reach out to the Board directly by calling 866-270-6772.

Ohio Power Siting Board Criteria

The Board utilizes the following criteria for reviewing an application for a major utility facility:

- 1. The basis of the need for the facility if the facility is an electric transmission line or gas pipeline;
- 2. The nature of the probable environmental impact;
- 3. That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- 4. In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- 5. That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under section 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- That the facility will serve the public interest, convenience, and necessity;
- 7. In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Notification of Public Hearings

The public will be given an opportunity to comment on the proposed Project. The public hearing for this proceeding shall consist of two parts and will not be held in-person. Instead, due to the continued state of emergency, the local public and adjudicatory hearings will both be held using remote access technology that facilitates participation by telephone and/or live video on the internet. The two-part public hearing will be held as follows:

 A local public hearing, pursuant to R.C. 4906.07 and 4906.08(C), where the Board shall accept testimony from any person on April 6, 2021, beginning at 6:00 p.m. Due to the ongoing pandemic, the hearing will be held virtually via Webex. Any person who wishes to provide testimony about the Project or who plans to join the Webex event must pre-register with the Public Utilities Commission of Ohio (Commission) before 12:00 p.m. on April 5, 2021, at <u>https://opsb.ohio.gov/wps/portal/gov/opsb/events/ross-county-solar-</u>

> 8400 NORMANDALE LAKE BLVD, SUITE 1200, BLOOMINGTON, MN 55437 952.988.9000 | WWW.NATIONALGRIDRENEWABLES.COM

public-hearing or by calling the Commission at 1-800-686-7826. The testimony to be provided will be limited to five minutes in duration. Any person who wishes to attend the public hearing and not offer testimony can do so by calling +1-408-418-9388 and entering access code 179 844 8456. The public hearing will also be live streamed for viewing at www.youtube.com/user/PUCOhio. Additional information regarding the hearing is available on the Board's website at https://opsb.ohio.gov/wps/portal/gov/opsb/cases/20-1380-el-bgn or by contacting the Commission's Consumer Call Center at 1-800-686-7826.

 An adjudicatory hearing commencing on April 27, 2021, beginning at 10 a.m. Due to the ongoing pandemic, the hearing will be held virtually via Webex. To participate in the adjudicatory hearing, intervention in the case is necessary.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 30 days following service of the notice required by R.C. 4906.06(C) and Ohio Adm.Code 4906-3-09, or March 8, 2021, whichever is later. However, the Board strongly encourages interested persons who wish to intervene in the adjudicatory hearing to file their petitions as soon as possible. Petitions should be addressed to Docketing Division, the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number.

Sincerely,

Derek Hasek Sr. Developer, Market Lead 952-641-4038 dhasek@nationalgridrenewables.com

Re: Ross County Solar Project Application for a Certificate of Environmental Compatibility and Public Need – Notice of Proposed Major Utility Facility.

[Salutation]

We hope you and your family are healthy and well. We are contacting you to provide you with additional details regarding the Ross County Solar Project. We very much appreciated the public feedback residents of the county provided at the September 30th, 2020 Public Information Meeting, and we look forward to continued collaboration with the community as we move toward construction and long term operation of the Project. Below you will find information regarding our company, where we are at in the Ohio Power Siting Board process, and information regarding upcoming public hearings on the Project.

About the Project

Ross County Solar, LLC (Ross County Solar), a subsidiary of National Grid Renewables (formerly Geronimo Energy, LLC, a National Grid Company), proposes to develop, build, and operate the Ross County Solar Project (Project), an up to 120 megawatt solar-powered electric generation facility (Facility) to be located in Ross County, Ohio. The general purpose of the Project is to maximize energy production from solar resources in order to deliver clean, renewable electricity to the Ohio bulk transmission system to serve the needs of electric utilities and their customers. The Project will span approximately 1,400 acres. The Project is anticipated to positively impact both the local economy and environment by producing significant tax revenue and other economic benefits for the area, and offsetting carbon dioxide emissions by an estimated 162,500 metric tons each year - the equivalent of taking approximately 35,000 cars off the road. The Facility will consist generally of the fenceline, photovoltaic (PV) panel arrays, electrical collection lines, inverters, access roads, a substation (which includes transformers), an operations and maintenance (O&M) building, weather stations, and laydown yards. The Facility will deliver power to a single point of interconnection at the existing Buckskin 69 kilovolt (kV) substation. The point of interconnection will consist of a short gen-tie line from the Facility substation to the Buckskin substation, where the line will connect to a new 69 kV breaker bay within the existing substation. For additional information regarding the Project, don't hesitate to contact Ross County Solar directly at 937-519-2007 to walk through details of the Project. For your convenience, we have included the map below showing the location and general layout of the Project.

Ross County Solar's Application to the Ohio Power Siting Board

Ross County Solar has filed with the Ohio Power Siting Board (Board) an application for a Certificate of Environmental Compatibility and Public Need to construct, operate, and maintain the Project in Case No. 20-1380-EL-BGN, which is now pending before the Board. Copies of the application were served upon the Ross County Board of Commissioners, Buckskin Township Board of Trustees, Paint Township Board of Trustees, Ross County Soil and Water Conservation District, Ross County Planning and Building Department, and Greater Chillicothe and Ross County Development. A copy of the application was also provided to and is available for public review at the Chillicothe and Ross County Public Library (Main Library) in Chillicothe. The full case record can be found via the Board's website at https://dis.puc.state.oh.us/CaseRecord.aspx?Caseno=20-1380&link=Dl. Alternatively, a link to the Board's website at https://dis.puc.state.oh.us/CaseRecord.aspx?Caseno=20-1380&link=Dl. Alternatively, a link to the Board's website at https://dis.puc.state.oh.us/CaseRecord.aspx?Caseno=20-1380&link=Dl. Alternatively, a link to the Board's website at https://dis.puc.state.oh.us/CaseRecord.aspx?Caseno=20-1380&link=Dl. Alternatively, a link to the Board's website at https://nationalgridrenewables.com/ross-county/. To obtain additional information about obtaining a hard copy of the application or to request help accessing electronic records, reach out to Ross County Solar directly at 937-519-2007. You can also reach out to the Board directly by calling 866-270-6772.

Ohio Power Siting Board Criteria

The Board utilizes the following criteria for reviewing an application for a major utility facility:

- 1. The basis of the need for the facility if the facility is an electric transmission line or gas pipeline;
- 2. The nature of the probable environmental impact;
- 3. That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- 4. In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- 5. That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under section 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- That the facility will serve the public interest, convenience, and necessity;
- 7. In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
- That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Notification of Public Hearings

The public will be given an opportunity to comment on the proposed Project. The public hearing for this proceeding shall consist of two parts and will not be held in-person. Instead, due to the continued state of emergency, the local public and adjudicatory hearings will both be held using remote access technology that facilitates participation by telephone and/or live video on the internet. The two-part public hearing will be held as follows:

 A local public hearing, pursuant to R.C. 4906.07 and 4906.08(C), where the Board shall accept testimony from any person on April 6, 2021, beginning at 6:00 p.m. Due to the ongoing pandemic, the hearing will be held virtually via Webex. Any person who wishes to provide testimony about the Project or who plans to join the Webex event must pre-register with the Public Utilities Commission of Ohio (Commission) before 12:00 p.m. on April 5, 2021, at <u>https://opsb.ohio.gov/wps/portal/gov/opsb/events/ross-county-solar-</u>

> 8400 NORMANDALE LAKE BLVD, SUITE 1200, BLOOMINGTON, MN 55437 952.988.9000 | WWW.NATIONALGRIDRENEWABLES.COM

public-hearing or by calling the Commission at 1-800-686-7826. The testimony to be provided will be limited to five minutes in duration. Any person who wishes to attend the public hearing and not offer testimony can do so by calling +1-408-418-9388 and entering access code 179 844 8456. The public hearing will also be live streamed for viewing at www.youtube.com/user/PUCOhio. Additional information regarding the hearing is available on the Board's website at https://opsb.ohio.gov/wps/portal/gov/opsb/cases/20-1380-el-bgn or by contacting the Commission's Consumer Call Center at 1-800-686-7826.

 An adjudicatory hearing commencing on April 27, 2021, beginning at 10 a.m. Due to the ongoing pandemic, the hearing will be held virtually via Webex. To participate in the adjudicatory hearing, intervention in the case is necessary.

Intervention

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 30 days following service of the notice required by R.C. 4906.06(C) and Ohio Adm.Code 4906-3-09, or March 8, 2021, whichever is later. However, the Board strongly encourages interested persons who wish to intervene in the adjudicatory hearing to file their petitions as soon as possible. Petitions should be addressed to Docketing Division, the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number.

Sincerely,

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

Ross County Solar, LLC (Ross County Solar), a subsidiary of National Grid Renewables (formerly Geronimo Energy, LLC, a National Grid Company), proposes to develop, build, and operate the Ross County Solar Project ((Project), an up to 120 megawatt solar-powered electric generation facility (Facility) to be located in Ross County, Ohis. The general purpose of the Project is to maximize energy production from solar resources in order to deliver clean, renewable electricity to the Ohio bulk transmission system to serve the needs of electric utilities and their customers. The Project will span approximately 1.400 acres. The Project is anticipated to positively impact both the local economy and environment by producing significant tax revenue and other economic benefits for the area, and offsetting carbon dioxide emissions by an estimated 162,500 metric tons each year – the equivalent of taking approximately 35,000 cars off the road. The Facility will consist generally of the fenceline, photovitaic (PV) panel arrays, electrical collection lines, inverters, access roads, a substation (which includes transformers), an operations and maintenance (0&M) building, weather stations, and laydown yards. The Facility will deliver power to a single point of interconnection at the existing Buckskin 69 kilovolt (kV) substation, The point of interconnection will consist of a short gen-tie line from the Facility substation to the Buckskin substation, where the line will connect to a new 69 kV breaker bay within the existing substation, A map showing the location and general layout of the Project is below.

Ross County Solar has filed with the Ohio Power Siting Board (Board) an application for a Certificate of Environmental Compatibility and Public Need to construct, operate, and maintain the Project in Case No. 20-1380-EL-BGN, which is now pending before the Board. Copies of the application were served upon the Ross County Board of Commissioners, Buckskin Township Board of Trustees, Paint Township Board of Trustees, Ross County Soli and Water Conservation District, Ross County Planning and Building Department, and Greater Chilicothe and Ross County Development. A copy of the application was also provided to and is available for public review at the Chillicothe and Ross County Public Library (Main Library) in Chillicothe, The full case record can be found via the Board's website at https://cnationalgridrenewables.com/ross-county/. To batin additional information about obtaining a hard copy of the application or to request help accessing electronic records, reach out to Ross County Solar directly at 937-519-2007. You can also reach out to the Board directly by calling B66-270-672.

The Board utilizes the following criteria for reviewing an application for a major utility facility

The basis of the need for the facility if the facility is an electric transmission line or gas pipeline;
 The nature of the probable environmental impact;

 That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;

4. In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;

5. That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under section 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code. In be over the facility will comply with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.

6. That the facility will serve the public interest, convenience, and necessity;

7. In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what it is impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 29. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the complication, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.

8. That the facility incorporates maximum feasible water conservation practices as determined by the boar considering available technology and the nature and economics of the various alternatives.

The public will be given an opportunity to comment on the proposed Project. The public hearing for this proceeding shall consist of two parts and will not be held in-person, Instead, due to the continued state of emergency, the local public and adjudicatory hearings will both be held using remote access technology that facilitates participation by telephone and/or live video on the internet. The two-part public hearing will be held as follows:

1. A local public hearing; pursuant to R,C, 4906,07 and 4906,08(C), where the Board shall accept testimony from any person on April 6, 2021, beginning at 6 500 p.m. Due to the ongoing pandemic, the hearing will be held virtually va Webex, Any person who wishes to provide testimony about the Project or who plans to join the Webex event must pre-register with the Public Utilities Commission of Ohio (Commission) before 12:00 p.m. Out of the solution of Ohio (Commission) before 12:00 p.m. on April 5, 2021; at https://opsb.ohio.gov/vps/portal/gov/opsb/events/ross-county-solar-public-hearing or by calling the Commission at 1-800-686-7826. The testimony about the project of the minutes in duration. Any person who wishes to altered the public hearing and not offer testimoxy can do so by calling 1-408-418-9388 and entering access code 179 844 8456. The public hearing will also be live streamed for viewing at www.youtube. com/vse/PUCChio. Additional information regarding the hearing is available on the Board's website at https:// opsb.ohio.gov/vps/portal/gov/opsb/case/20-1380-el-bgr or by contacting the Commission's Consumer Call Comtarts and one-686-7826.

2: An adjudicatory hearing commencing on April 27, 2021, beginning at 10 a.m. Due to the ongoing pandemic, the hearing will be held virtually via Webex. To participate in the adjudicatory hearing, intervention in the case is necessary.

Petitions to intervene in the adjudicatory hearing will be accepted by the Board up to 30 days following service of the notice required by R.C., 4906.06(C) and Ohio Adm.Code 4906-3-09, or March 8, 2021, whichever is later. However, the Board strongly encourages interested persons who wish to intervene in the adjudicatory hearing to file heir petitions as soon as possible. Petitions should be addressed to Docketing Division. the Ohio Power Stiting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number.

RE: Ross County Solar Project - Notice of Public and Adjudicatory Hearings

Dear Neighbor,

We hope this letter finds you well. As a neighbor to the proposed Ross County Solar Project, we have enclosed a copy of the public notice for the upcoming public and adjudicatory hearings. The public hearing along with the adjudicatory hearing are a standard part of the Ohio Power Siting Board process for solar projects over 50 megawatts. We seek to keep the community informed regarding the Project, and should you have any questions, do not hesitate to contact us at any time (see our contact information below).

ABOUT THE ROSS COUNTY SOLAR PROJECT

The Ross County Solar Project is an approximately 120 MW solar project sited on approximately 1,400 acres. The area under development is located southeast of Greenfield in Ross County, Ohio. The Project will interconnect to the transmission grid via the existing Buckskin Substation at the intersection of Highway 41 and Lower Twin Road. We anticipate construction beginning as soon as mid to late 2021, and facility operations commencing in 2022.

GET IN TOUCH

Please feel free to contact us at the information provided below. Our team looks forward to working with the community throughout the ongoing planning, development, construction, and operation of this Project.

Sincerely,

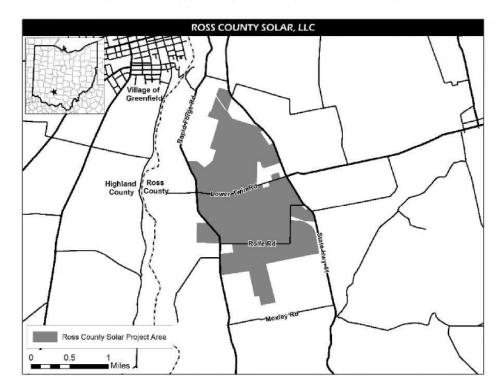

Ilm

William Risse Permitting Specialist 952-300-9476 wrisse@nationalgridrenewables.com

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

Ross County Solar, LLC (Ross County Solar), a subsidiary of National Grid Renewables (formerly Geronimo Energy, LLC, a National Grid Company), proposes to develop, build, and operate the Ross County Solar Project (Project), an up to 120 megawatt solar-powered electric generation facility (Facility) to be located in Ross County, Ohio. The general purpose of the Project is to maximize energy production from solar resources in order to deliver clean, renewable electricity to the Ohio bulk transmission system to serve the needs of electric utilities and their customers. The Project will span approximately 1,400 acres. The Project is anticipated to positively impact both the local economy and environment by producing significant tax revenue and other economic benefits for the area, and offsetting carbon dioxide emissions by an estimated 162,500 metric tons each year - the equivalent of taking approximately 35,000 cars off the road. The Facility will consist generally of the fenceline, photovoltaic (PV) panel arrays, electrical collection lines, inverters, access roads, a substation (which includes transformers), an operations and maintenance (O&M) building, weather stations, and laydown yards. The Facility will deliver power to a single point of interconnection at the existing Buckskin 69 kilovolt (kV) substation. The point of interconnection will consist of a short gen-tie line from the Facility substation to the Buckskin substation, where the line will connect to a new 69 kV breaker bay within the existing substation. A map showing the location and general layout of the Project is below.

Ross County Solar has filed with the Ohio Power Siting Board (Board) an application for a Certificate of Environmental Compatibility and Public Need to construct, operate, and maintain the Project in Case No. 20-1380-EL-BGN, which is now pending before the Board. The initial public notice of Ross County Solar's accepted, complete application was previously published in the Chillicothe Gazette and Hillsboro Times Gazette on January 29, 2021.

The public will be given an opportunity to comment on the proposed Project. The public hearing for this proceeding shall consist of two parts and will not be held in-person. Instead, due to the continued state of emergency, the local public and adjudicatory hearings will both be held using remote access technology that facilitates participation by telephone and/or live video on the internet. The two-part public hearing will be held as follows:

- 1. A local public hearing, pursuant to R.C. 4906.07 and 4906.08(C), where the Board shall accept testimony from any person on April 6, 2021, beginning at 6:00 p.m. Due to the ongoing pandemic, the hearing will be held virtually via Webex. Any person who wishes to provide testimony about the Project or who plans to join the Webex event must preregister with the Public Utilities Commission of Ohio (Commission) before 12:00 p.m. on April 5, 2021, at https://opsb.ohio.gov/wps/portal/gov/opsb/events/ross-county-solarpublic-hearing or by calling the Commission at 1-800-686-7826. The testimony to be provided will be limited to five minutes in duration. Any person who wishes to attend the public hearing and not offer testimony can do so by calling +1-408-418-9388 and entering access code 179 844 8456. The public hearing will also be live streamed for viewing at www.youtube.com/user/PUCOhio. Additional information regarding the hearing is available the on Board's website at https://opsb.ohio.gov/wps/portal/gov/opsb/cases/20-1380-el-bgn or by contacting the Commission's Consumer Call Center at 1-800-686-7826.
- 2. An adjudicatory hearing commencing on April 27, 2021, beginning at 10 a.m. Due to the ongoing pandemic, the hearing will be held virtually via Webex. To participate in the adjudicatory hearing, intervention in the case is necessary.
