**RE: BullsEye Telecom, Inc.
P.U.C.O Tariff No. 2 (Access) – Final Tariff Pages
Case No. 21-0651-TP-ATA
TRF No. 90-9163-TP-TRF**

Dear Ms. Troupe:

Enclosed for filing please find the final tariff pages for the access services tariff revision submitted on behalf of BullsEye Telecom, Inc. The effective date of this filing is July 3, 2021.

Any questions you may have regarding this filing should be directed to my attention at 407-740-3005 or via email to swarren@inteserra.com. Thank you for your assistance in this matter.

Sincerely,

/s/Sharon R. Warren

2. Rules and Regulations (cont'd.)**2.12 Determination of Jurisdiction of Mixed Interstate and Intrastate Dedicated Transport Service (cont'd.)**

2.12.2 When mixed interstate and intrastate service is provided over a dedicated facility, the jurisdiction will be determined as follows. (M)

- (a.) If the Customer's estimate of the interstate traffic on the service equals 10% or less of the total traffic on that service, the service will be provided according to the applicable rules and regulations.
- (b.) If the Customer's estimate of the interstate traffic on the service is more than 10% of the total traffic on that service, the service will be provided according to the applicable rules and regulations of the appropriate interstate tariff.
- (c.) If the percentage of interstate traffic on the service changes to the extent that it alters the jurisdiction of the service, the Customer must notify the Company of any required change in status. The affected service will revert to the appropriate jurisdictional tariff within the next full billing cycle. (M)

2.13 Identification and Rating of Toll VoIP-PSTN Traffic

2.13.1 Application of Access Charges to Toll VoIP-PSTN Access Traffic (M)

- (a) In the absence of an agreement between the Company and the Customer specifying the treatment of Toll VoIP-PSTN Traffic, all Toll VoIP-PSTN Access traffic will be assessed access charges at the rates set forth in Section 2.13.3 of this tariff. (T)
- (b) The Company shall assess and collect access rate elements under this tariff for access services, regardless of whether the Company itself delivers such traffic to the called party's premises or delivers the call to the called party's premises via contractual or other arrangements with an affiliated or unaffiliated provider that does not itself seek to collect access charges for the same traffic. The Company will charge for functions provided by the Company and/or its affiliated or unaffiliated providers of VoIP service. For purposes of this provision, functions provided by the Company, or its affiliated or unaffiliated provider of VoIP service as part of transmitting telecommunications between designated points using, in whole or in part, technology other than TDM transmission in a manner that is comparable to a service offered by a local exchange carrier constitutes the functional equivalent of carrier access service. (T) (M)

2. Rules and Regulations (Cont'd.)**2.13 Identification and Rating of Toll VoIP-PSTN Traffic (Cont'd.)****2.13.2 Scope**

(T)

Toll VoIP-PSTN Traffic is traffic exchanged in time division multiplexing ("TDM") (T)
 format that originates and/or terminates in Internet protocol ("IP") format. This section (T)
 governs the identification of Toll VoIP-PSTN Traffic that is to be compensated at (T)
 interstate access rates (unless the parties have agreed otherwise) in accordance with |
 applicable law. Specifically, this section establishes the method of separating such traffic |
 (referred to in this tariff as "Relevant VoIP-PSTN Traffic") from the Customer's |
 traditional intrastate access traffic. (T)

(D)

2. Rules and Regulations (Cont'd.)**2.13 Identification and Rating of Toll VoIP-PSTN Traffic (Cont'd.)****2.13.3 Rating of Toll VoIP-PSTN Traffic (T)**

Relevant VoIP-PSTN Traffic identified in accordance with this tariff Section 2.13 will be (C)
billed in accordance with the Company's applicable interstate switched access tariff. Current |
and pending interstate access rates for the Company are located at |
<https://apps.fcc.gov/etfs/public/lecTariffs.action?idLec=283> (C)

2.13.4 Calculation and Application of Percent-Toll VoIP-PSTN-Usage Factor (T)

The Company will determine the number of Relevant VoIP-PSTN Traffic minutes of use (T)
("MOU") to which interstate rates will be applied under Section 2.13.3 above, by applying (T)
a Percent VoIP Usage Factor ("PVU Factor") to the total intrastate access minutes of use |
identified by the Company as being exchanged between the Company and the Customer. |
The PVU Factor will be derived and applied as follows: (T)

1. The Company will apply a PVU Factor furnished by the Customer if and only if (C)
the Customer satisfies all of the following requirements: |
 - a. Customer furnishes to the Company a PVU Factor at least fourteen (14) |
days, and no sooner than thirty (30) days, in advance of the first day of |
each quarter (*i.e.*, January 1, April 1, July 1, and October 1) for |
application in the subsequent quarter. |
 - b. The PVU Factor furnished by the Customer for each given quarter |
accurately represents the whole number percentage of the total intrastate |
access MOU that Customer exchanges with Company in the State that is |
originating access received by Customer from Company and terminates in |
IP format. |
 - c. Concurrent with the furnishing of the PVU Factor for each given quarter, |
Customer provides auditable data and underlying documentation to the |
Company (*e.g.*, traffic study data, network usage data, FCC Form 477 |
Report data) that fully supports the PVU Factor furnished for that quarter. |
 - d. Customer clearly indicates the source of all data used to compute |
Customer's furnished PVU Factor. If a spreadsheet is submitted, each |
cell must either (a) include the formula used to calculate the data in the |
cell or (b) be based on an external source for which the underlying |
documentation is also furnished by the Customer to the Company. The |
data and documentation submitted in support of the PVU Factor shall not |
be more than one year older than the date on which the PVU Factor is |
furnished to the Company. (C)

2. Rules and Regulations (Cont'd.)**2.13 Identification and Rating of Toll VoIP-PSTN Traffic (Cont'd.)****2.13.4 Calculation and Application of Percent-Toll VoIP-PSTN-Usage Factor (Cont'd.)**

1. The Company will apply a PVU Factor furnished by the Customer if and only if (C) the Customer satisfies all of the following requirements: (continued)
 - e. Upon request of the Company, Customer makes available to Company any and all additional underlying records or other information necessary to verify the PVU Factor and the data and documentation submitted by Customer in support of Customer's furnished PVU Factor. Customer shall retain all data, documentation, call details, work papers, and/or other information used to develop or support each quarterly PVU Factor for a minimum of one year from the date on which the PVU Factor is furnished to the Company.
2. If Customer does not furnish Company with a PVU Factor and supporting documentation pursuant to Section 2.13.4., above, the Company may apply a PVU Factor equal to the percentage of VoIP subscribers in the state based on the most recent Local Competition Report released by the FCC, calculated based on the total number of incumbent LEC and non-incumbent LEC VoIP subscriptions in the state divided by the sum of the total reported number of VoIP subscriptions plus incumbent LEC and non-incumbent LEC switched access lines. (C)

3. Description of Services (Cont'd.)**3.1 Access Services (Cont'd.)**

(M)

(M)

(B.) 800 Data Base Access Service

800 Data Base Access Service is a service offering utilizing originating trunk side Switched Access Service. The service provides for the forwarding of end user dialed 800 calls to a Company Service Switching Point which will initiate a query to the data base to perform the Customer identification and delivery function. The call is forwarded to the appropriate Customer based on the dialed 800 number.

For 800 Data Base Access Service, the Customer shall order the service in accordance with the preceding provisions set forth for Feature Group D. If the Customer desires any of the optional features available with 800 Data Base Service, the Customer shall so specify on the order for service.
