Dear Chairwoman French:

We are ever so grateful for your careful consideration of all our concerns for the Republic Wind Project, Case 17-2295-EL-BGN, and denying their Certificate of Environmental Compatibility and Public Need.

I was elected to the position of Thompson Township Trustee by a 60-40 margin in November of 2019. I had to run against a well-liked, longtime Trustee. With the huge support of residents who did not want industrial wind turbines in our township, I was able to defeat him. This particular election clearly shows the local residents disdain for large scale wind turbine development in our area. This is why I urge you and your Board to support SB52.

Thank you again for considering the safety of our residents, our wells, and all the other concerns we have. The majority of our residents are so happy all their long, hard work has paid off.

Sincerely,

Kevin Oney  
Thompson Township Trustee  
Seneca County
