Subject: Border Basin Solar Project

Ohio Power Sitting Board,

I live in Cass Township but I am not directly affected by the Border Basin project. However, I am in opposition to the project on the basis that the land is more valuable for the production of food rather than electric power. It also seems to me that the size of the land used in comparison to the total size of the township is excessive. Before final approval, I would recommend more evaluation on issues such as the effects on wildlife, drainage, and human related factors.

As a means of communication with those outside of the sitting board who may read this, I would present the following opinions:

We are currently in a time of progressive extremist enthusiasm for creating "Green Energy Sources" before the earths climate is supposedly destroyed. For all who are directly affected by the project and did not vote for Democratic party politicians, I would suggest getting an attorney and follow every avenue to slow down the project so it will become too much a liability to be pursued further. For those who are affected by the project and voted for Democratic party politicians; you deserve what you get!

Regards,
Kevin Stein
Township Road 218
Arcadia, Ohio 44804
