My wife has lived on this farm for 75 years. 75 years we have enjoyed the peace, solitude, the wildlife, of this beautiful community. Now in a short period you are going to destroy all this. Destroy the environment, our property values, our solitude, our water quality and quantity, the health of our agricultural soils, and our mental demeanor. Destroy this so that a few become richer and the majority lose all. Destroy this so that outside investors, that do not and will not live in the area, pad their pockets at our expense. This is nothing more than the rape of our community.
