**Subject:** July 29 /solar panels Case No. 21-277-EL BGN

As residents of Cass Township, Hancock County we are 100 percent opposed to the solar farm project in Washington Twp. near Arcadia, Ohio

This township (Washington Twp.) is zoned Agriculture. It will take land out of production. Wildlife will have habitat destroyed. Property values will drop around the solar farm and surrounding residents properties will go down in value.

The panels who is going to manufacture them. Is the supplier going to be a foreign nation like China. What is the longevity of a panel?  
Quality control of the solar panel how long do they last before replacement of panel.  
What is the material safety data sheet for the solar panels?  
What commercial businesses will be using the energy and/or homes plugging into this project.

Wanda & Dave Cusac  
Cass Twp. Residents  
Findlay, Ohio
