**COMPLAINANT'S SUPPLEMENTAL RESPONSE PURSUANT  
TO OHIO ADMINISTRATIVE CODE §4901-9-01(F)**

---

The electrical interruptions about which I have complained over numerous years, occurred again on July 22, 2021 at approximately 8:35 a.m. The outage lasted only a few seconds. In that few seconds, all electronics shut down. All other power generated appliances shut off. There is no rhyme or reason to this. It is a sunny day, approximately 71° and there is not reason why the power should have went out, yet it did once again. And, this has been going on for years. The outages are either by seconds, minutes or hours. There is no explanation from the Illuminating Company. No offer of correction. Crickets.

I understand this is not the worst thing that could happen to someone. But when this happens as a pattern over a period of time, it becomes annoying enough for me to write a letter and complain about it and that is exactly what I am doing in this process.

Respectfully submitted,

MICHAEL P. HARVEY CO., L.P.A.
