---

This Comment is for Dorothy Pelanda and those who decided to put a solar farm in Union County. We have THOUSANDS of MILES of desert that would be PERFECT (Most efficient) for solar farms. No cloud cover 99% of the year, no neighbors to tick off, no birds to kill as they fly over etc. WHY would the Ohio Director of Agriculture (Most of all) turn farmland into solar farms in Ohio with cloud cover most of the year, neighbors all around being ticked off, and birds by the thousands potentially killed while flying over? This seems backwards for the Ohio Director of Agriculture, to get rid of farmland. We will not forget this come election time.

MICHAEL SCHMELZER
