Subject: Birch Solar Project

Hello, my name is John Spring and I live at 4160 Bowsher Rd Lima Ohio. I want to express my family's concern with this enormous project being proposed so close to a residential area. The panels they are going to use are produced in China without any specs or regulations. We have no data that tells us these are safe. I am concerned for our water supply in the future. These panels will be above our well, and they also will be placed beside our rivers and creeks. Please decline this application do to the unknowns and the placement so close to a community. Solar is good, we just need to be smart where we place them.

Sincerely,
John Spring 419.371.1955

PS I can also show you the impact it will have to wildlife and flooding in our area. These are two additional concerns. I have plenty of pictures I can share. If you need any info please give me a call.
