PROJECT NAME: YELLOW WOOD SOLAR

COMMENT: I am concerned that the solar farms will be
a big disaster. Really worried that it
will kill out a lot of wild life & will be
unsafe for us to live that close to solar
panels. worried it will contaminate our water
& pollute our air we breathe.

Is this affecting you mentally as far as
anxiety, depression, loss of friends, neighbors, etc.?

I have been very depressed & stressed
over the solar farms being ~~that~~ close to our
home. It's tearing this country town apart.
So upset that the chemicals they use could
trigger cancer & destroy everything around us.
