PROJECT NAME: YELLOW WOOD SOLAR

STATEMENT:

We bought this place for a beautiful home
for our kids & Grandkids to enjoy the country
life & to have a beautiful home to retire.
We have been working hard to get our property
the way we want it with a garden, berry patch &
fruit trees. We love watching the beauty of wild
life running around our property. We want to be satisfied.
Very concerned that the chemicals they use ~~ourselves~~
will contaminate our property & pollute our air.

How is this affecting you mentally as far as
stress, depression, loss of friends, neighbors, etc.?

I have been very depressed and not getting much
sleep worried about our future. Very concerned
about our property will depreciate. The thought of
wild life being gone. We are very concerned that
the poisons & chemicals they are using will cause
a lot of health problems. We are upset that it is
tearing this country town apart over this solar farms.
