PROJECT NAME:

YELLOW WOOD SOLAR

STATEMENT:

I oppose the solar project. Put them somewhere else, not
on farmland. I want to farm and I want my kids to have a
chance also. These projects are taking up too much land. Let alone
now my house will be surrounded on three sides by them. I have
not talked to anyone who would want to live next to it.
Now I have to hurry and try to finish remodeling my house to
try and sell. I already spent 45k on addition in 2019 not knowing
leases were signed quickly. That money spent won't be recouped.

How is this affecting you mentally as far as
stress, depression, loss of friends, neighbors, etc.?

The possibility of living next to a solar farm (3 sides) has
caused my family undue stress. Don't know what to do as we don't
want to live next to it and were not ready to move
How will our value be affected, can we even afford
to sell? My neighbors who are friends have signed up and that doesn't help.
I know they have rights on their property but this area is not
zoned for commercial/Industrial power generation and it should not
be allowed. Solar co. will not purchase my house either.
