E: YELLOW WOOD SOLAR

I disapprove of solar panels going into this area.
This is good producing farm ground that will be
destroyed. Eventually there will be no food for
the younger generation. Is this what you want?
I remember people buying small farms and destroying
the trees immediately for more ground to farm.
Now wants to destroy all this and trash it.

ecting you mentally as far as
ion, loss of friends, neighbors, etc.?

This is constantly on my mind. Thinking about
the father generation. What about them?
