Lynchburg Oh 45142

OBJECT #: 20-1680-EL-BGN

OBJECT NAME: YELLOW WOOD SOLAR

STATEMENT: My Father was a farmer and I started helping him when  
I was ten years old right then I knew this would be  
my life now I am 62 I love farming there is nothing  
better than watching things grow and see what  
you accomplished when you see fields of beautiful  
green. They are wanting to put solar in land  
from people who I presently eat which the company  
made everything sound so good so they are going for  
stupidly the money. That is 352 acres that I will lose.  
When they drive post in the ground they will be hitting tile that

runs through their land and also runs through my land  
therefore it will mess up my land so it won't drain right concerned  
is this affecting you mentally as far as about how hot these solar panels will get and reflect more  
s, depression, loss of friends, neighbors, etc.? heat on the grass I planted beside them my crop will  
be less profitable

I have been stressing so much over all of this I don't understand what  
benefits this is really going to do for us in this area nothing! We live in  
a small community the country roads we drive down have lots of farmland,  
Neighbors all around but separated by land which gives everyone privacy  
No one wants to look across their road or beside their home and see ugly fences  
with even ugly solar panels We don't want to move but if a person choose to  
ture: there is no way anyone would buy a home next to a field of solar. If these projects  
are only going to benefit the Big City then take them there We don't want the
