Subject: 17-2295-EL-BGN:Republic Wind Farm - Public Comment

I read the Supplemental Memorandum filed yesterday (8/18/2021) by Republic Wind, LLC and am requesting that this message and its attachments be filed as a public comment in response in Case No. 17-2295-EL-BGN.

On 9/12/2019 I presented verbal testimony during the public hearing for this case held on the campus of Tiffin University. My testimony focused on analyzing the public comments filed in this case up to the date of the public hearing. A copy of my testimony from that hearing is attached. Along with my testimony that day I also submitted a list of public comments filed with the OPSB in this case through 9/9/2019. A copy of that list is also attached.

I want to particularly comment on Attachment C to Republic Wind's Supplemental Memorandum filed yesterday. A cursory comparison of said Attachment C to the list of public comments submitted with my testimony from the public hearing on this case reveals **over 120 comments in opposition to this project that were not included in the attachment to Republic Wind's Supplemental Memorandum filed 8/18/2021**. Significantly, nearly all of the omitted comments were from residents living in or near the footprint of the proposed Republic Wind project. I have included below a list of these omissions, including the date the comment was filed with the OPSB and the commenter's city of residence (if known).

I want to note that the list below only identifies comments in opposition filed prior to 9/9/2019. It is entirely possible that Attachment C to Republic Wind's Supplemental Memorandum omits additional comments in opposition filed after that date, but I have not yet reviewed comments filed later than 9/9/2019.

I ask the board to disregard Republic's Supplemental Memorandum as its attached documents are grossly incomplete and misleading.

Sincerely,
Charles Groth
Bloomville, Ohio

Comments in Opposition (through 9/9/2019) Not Included in Attachment C of Republic Wind's Supplemental Memorandum filed on 8/18/2021

I would like to share some statistics from the public comments filed with the Ohio Power Siting Board in this project. I have here a list of all comments filed through September 9th, and I have an extra copy that I will leave with the board following my testimony today.

First, I will state that roughly an equal number of people have filed comments supporting and opposing this project. But beyond that the similarities stop.

One of the first things noticeable when reviewing comments is that some comments on both sides have been filed repeatedly. Of comments opposing the project, six were filed in duplicate - meaning the same letter signed by the same person filed two separate times with the OPSB.

But there is a much more noticeable pattern of duplicate filings among comments in support of the project. Overall, 24 comments in support have been filed in duplicate with the OPSB. Four comments in support have been filed in triplicate. And one comment in support - the same letter signed by the same person - was filed four times in a five month period.

Another statistic that I want to point out to this Board is that fewer than half of the comments in support of this project are from Seneca County residents. By comparison, 90% of the comments in opposition are from people who live in this county. And if you add residents of neighboring Sandusky and Huron Counties that figure rises to 95%.

I understand why a union employee might not object to this project. For them, Republic Wind is a paycheck for a few months, and then they get to go home. They are not forced to carry the burden for the next 20-30 years like those of us who live here will be.

A final pattern I want to point out is the overwhelming prevalence of form letters among comments in support of the project. In fact, 93% of all public comments in support of this project are form letters. By comparison, only 23% of comments in opposition are form letters.

One of the dangers of relying heavily on form letters is that you end up with situations such as the gentleman from Crosby, Texas who submitted a form letter stating he is "a

resident of the area surrounding the Republic Wind Project." I suppose it depends how you define "the area surrounding Republic", but at over 1200 miles away I think Crosby, Texas is rather a stretch.

I would also like to point out that it is much easier to simply sign your name to a letter that someone else wrote and that someone else will submit on your behalf than it is to take the time and effort to find your own words and figure out how to navigate the OPSB system to submit your comment yourself. There is a level of time, effort and investment in the many heartfelt comments in opposition that is lacking the form letters of support.

In closing, I would like to make the following comments:

To Whom It May Concern:

Seneca County is (really) my home, and I have an interest in decisions that impact our future.

Wind energy is a complex subject, but I've educated myself over the last few years to understand exactly what this project means for my family, my community, and our legacy. I'm not alone, as I've seen widespread opposition to this project from my neighbors and family. Most don't want it, and I share their opinion. As for me and my family, we will welcome the denial of this project and the avoidance of all damage that this wind project would bring.

We've been voicing our concerns on this project for over a year. Now that the Ohio Power Siting Board is finally here, I urge you to hear the overwhelming opposition from the foundation of this community - the people who (really) live here!

Thank you.

1	Nehls, Lois	11/30/17	N	2620 Co. Rd. 181, Clyde, OH	no	States she supports wind energy, but implies she would move and hopes Apex would buy her house
	Willard Schools Board of Education	03/08/19	N	110 S. Myrtle Ave., Willard, OH	no	Rescinds stance taken on March 12, 2018

Notes
On 2/13/18 Apex filed 45 form letters in support, nearly every letter was filed twice with some filed 3x on the same date. Those 45 letters only had 21 signers.
On 3/9/18 Apex refiled 3 letters, each of which had already been filed in duplicate on 2/13/18 (thus these letters were filed 3x on two different dates)

This foregoing document was electronically filed with the Public Utilities

Commission of Ohio Docketing Information System on
