Subject: Solar Farms Yellow Wood Project Case # 20-1680-EL-BGN

I love baseball. I enjoyed playing and I especially love playing ball with my grandchildren. This hobbled leg of mine has not diminished my enthusiasm for the spirit of the game. Where do we play? We play on our Field of Dreams on Mud Switch Rd, Clinton County, Ohio, the USA. We play adjacent to the soybean field or sometimes corn field. We play under spacious skies where first base is sometimes the septic tank lid, second base is the clothes line post, third base is the old Oak tree, and home plate is anywhere you want it.

A home run is any ball hit into the bean field. No one ever strikes out. No one ever walks. The count sometimes goes 10 balls and 12 strikes but you are never out. The kids have not mastered the tag yet. Sometimes you get hit in the back of the head with a tennis ball and then it is considered a ground rule double.

Our Field of Dreams is in the side yard, near the bean fields overlooking spacious skies. We built it and the kids come running. Our Field of Dreams is green, surrounded by grain, and then encompassed by several acres of woods. We never have many spectators. Perhaps a few deer grazing in the beans, or a few rabbits lurking in my garden. Occasionally a few turkeys will dispute a call on the field. Currently a few moles have made the basepaths a little difficult to maneuver.

Our Field of Dreams is NOT a field of solar panels. Our Field of Dreams is NOT a toxic solar waste land of Chinese technology. Our Field of Dreams is NOT an Industrial Park. Our Field of Dreams is GREEN! Our Field of Dreams is safe, fun, and

carefree.

I abhor those that attempt to destroy my Field of Dreams! I abhor those that destroy my neighbors' Field of Dreams. I abhor the GREEDY. The GREEDY are those that want to destroy other's Field of Dreams for their own profit. They destroy our safety, our health, our property, our families, our investments, our water, and our sanity. They destroy merely for GREED.

I hear the cries of my neighbors! They want to maintain and keep their Field of Dreams. Solar Farms destroy dreams.
