Dear OPSB,

I am adamantly against this project. This project was started by one man who had 104 acres. He coerced his elderly parents 89 and 90 years of age to sign up for a total of 688 acres. He got his sister onboard for another 90. That makes a total of 778 acres. His brother who was farmer of the year in the past and wanted the farm ground to remain farm ground.

The next major land contributor (275 acres) bought land explicitly for this project. His dairy project was featured on Our Ohio. Family member was treasurer for the Ohio Dairy Association . Did not work well for either party.

The other contributors do not farm the land themselves, they cash rent the land.

We tried Zoom, but broadband in the country does not work well.

Why in all of the meetings nothing was mentioned about any Good Neighbor Policy?

This project is all about money. They say it's the right thing for the township, county, schools, and the environment. Then continue to do the right thing for the Good Neighbor Policy.

Thank you for your time,

Tim Harmon
